CHRISTMAS VALLEY, OREGON

15 CENTS

AUGUST, 1962

3,000 Attend Western Event

WILL YOU BE READY FOR THE BOOM YEARS AHEAD?

The next few years will see the biggest boom the country has ever known. And with it . . . INFLATION.

This may be hard for you to accept under today's conditions. But the fact remains that those who DO prepare for the boom times ahead will reap big dividends for the foresight . . . and avoid the blunders others will make.

Land ownership is a hedge against inflation.

In 1956 the United States had 65 million cars, trucks and buses;

By 1961 the U.S. had 76 million cars, trucks and buses;

By 1972 the U.S. will have 101 million cars, trucks and buses.

Twenty-five million more cars coming in the next 10 years.

Can the cities handle them? I don't think so. Thousands of families must move out of the teeming population of the cities.

CALIFORNIA SOON TO BE THE MOST POPULOUS STATE IN THE UNION.

Los Angeles County population as of July 1 estimated at 6,395,200;

Orange County 882,500 — up 25 percent over 1960;

San Diego County 134,700;

Santa Clara County — up 117,800;

Sacramento County—up 64,000;

Santa Barbara County up 26 3/10 percent over 1960.

National economy in mid-year \$650 billion.

National trend is up in spite of stock market declines.

The health of the economy moved ahead the first half of the year.

Industrial production hit an all time high.

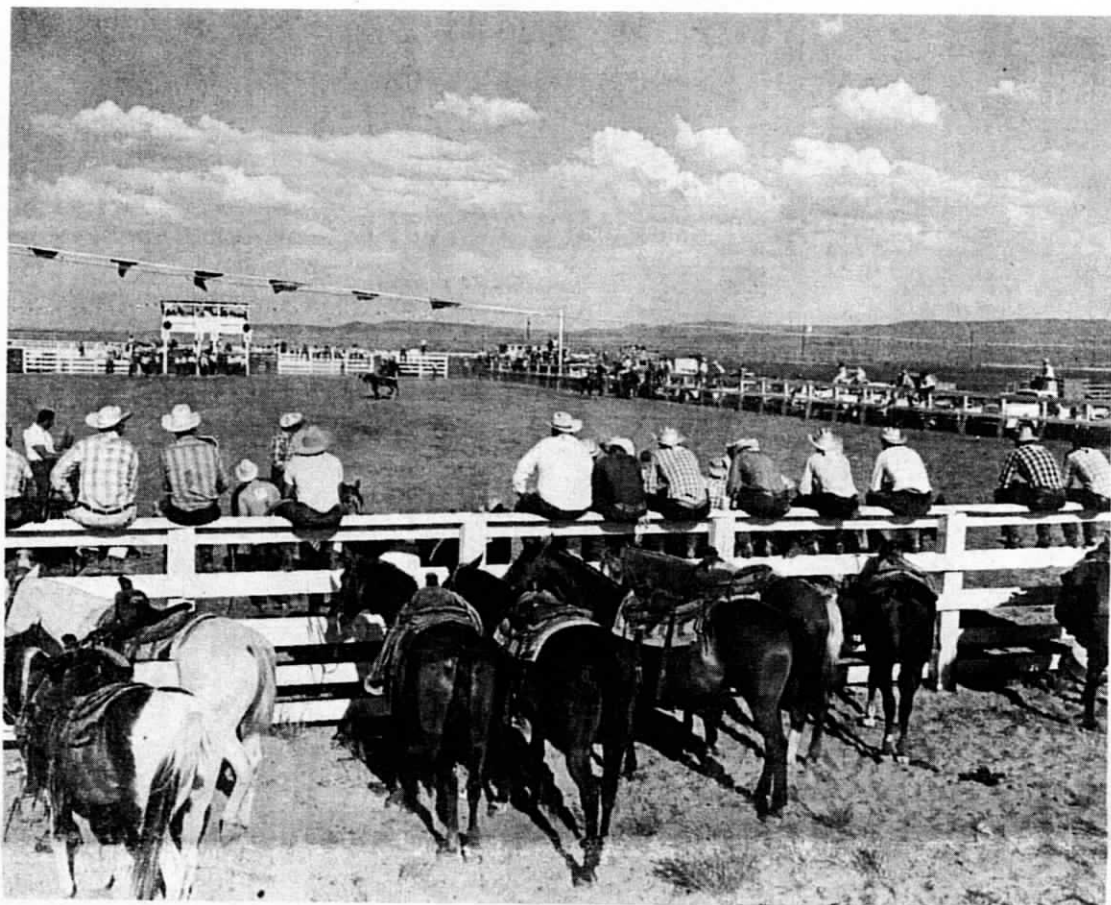

Employment continues to increase; new machinery and plants are increasing production per worker.

Government spending has been higher than anticipated. This also acts as a stimulus.

This year's car sales will reach 7 million.

SOUTHERN CALIFORNIA LEADS.

The Los Angeles Chamber of Commerce predicts employment in Southern California will rise 36.8 percent by 1970. We lead the nation in the rate of growth and expansion. Population increases have stepped up demands for services. Manufacturing employment is approaching high records; unemployment is declining. (Continued on Page 2)

PART OF BIG CROWD WATCHES ACTION — Portion of 3000 spectators and participants for the first Christmas Valley Horse Swapping Days and Rodeo are shown watching action during exciting event. Dude Ranch cowboys and honest-to-goodness cowpokes sit around fences observing and waiting for their turn. Horses don't seem particularly interested. (See other pictures on Pages 2 and 3)

RIDE 'EM COWBOY—Rider has tough time trying to stay on his bucking bronc. This was typical of the thrilling action during the two-day Christmas Valley Horse Swapping Days and Rodeo.

CHAMBER OFFICIALS IN FIRSTHAND LOOK AT DEVELOPMENT'S PROGRESS

Members of the Lake County Chamber of Commerce saw with their own eyes the tremendous progress made at the relatively new Christmas Valley development.

About 20 members of the Chamber made the trip to the M. Penn Phillips community and inspected various parts of the project.

According to a Page 1 story in the Lake County Examiner, the Chamber members "found the 9-hole golf course had been seeded

recently, and at least one-third of the large lake has been built and tested.

"The Lodge area has been landscaped with lawns and shrubs, and street work is progressing. The group also visited the Model Farm."

The Chamber also discussed highway routings and road maps at a forum luncheon Aug. 6 at the Christmas Valley Lodge.

They talked about the diver- (Continued on Page 2)

START SEEDING OF CHRISTMAS VALLEY COURSE

Construction of the Christmas Valley Golf Course continues at an almost incredible pace, thanks mainly to the ingenuity of president Carlo Giuntini.

"There's no question about it. When Mr. Giuntini gave us those clay models of the greens and approaches to the greens, which he designed himself, that enabled us to cut down our rough grading time up to 75%," said course superintendent Joe Ward of Bend, Ore.

This enabled workers to get a big jump ahead of the construction schedule. Ward expects to start seeding some of the fairways later this month.

Practice Greens Seeded

Already seeded are the practice putting greens and the driving range.

Also completed is the installation of the water system. Newest sprinkler heads are being used (Continued on Page 2)

Experts Rate Christmas Valley Western as Tops

"It's the greatest thing that has ever happened to this area." "This rodeo and horse swapping days event was conducted in a much better manner than many of the older and more famous ones." "You're going to hold another one next year, aren't you?" "I don't know when I've had a more exciting time. This was good a show as anything I've ever seen in movies or on television."

These were some of the comments expressed to M. Penn Phillips Co. officials after the highly successful staging of the first Christmas Valley Horse Swapping Days and Rodeo on July 21-22 at the brand new Dude Ranch.

Pleasant Surprise

Even some of the Phillips officials were pleasantly surprised.

"Frankly, we were knocked for a loop when we saw at least 3,000 people here at Christmas Valley for the event," admitted General Project Manager Phil Washington. "It shows what co-operation and teamwork will do. We have (Continued on Page 2)

READERS GET FREE SPECIAL HUNTING ISSUE

Christmas Valley Property owners and Christmas Valley Gazette Subscribers have another treat in store for them—a special Hunting Issue compiled by our talented Fishing and Hunting Editor LeRoy Harrod.

"We're still getting lots of compliments about the special Fishing Issue we put out last month," said M. Penn Phillips, head of the M. Penn Phillips Co. "I'm sure my good friend Roy will do just as fine a job on the Hunting Issue."

"Watch for this interesting bonus issue on hunting in Oregon, which is one of America's best hunting spots. Roy knows all the best spots and he'll tell you his secrets. Look for the special Hunting Issue sometime in September," said Phillips.

IN A WORD, FLABBERGASTED

BY CARLO M. GIUNTINI
President, M. Penn Phillips Co.

If I were permitted only one word to describe my reaction to the first Christmas Valley Horse Swapping Days and Rodeo, my selection would be "flabbergasted."

I truly was flabbergasted at the wonderful turnout of 3000 people from the great Northwest, California, Nevada and even Arizona. I was very thrilled watching the exciting action of the Rodeo. I'm sure other watchers were just as excited as I was, judging from the enthusiasm and excitement they generated.

But more important, I was also very proud as I watched the people and activity at Christmas Valley. I was proud of the spirit of the Valley.

This was a 100% community effort.

I don't think I'm being corny when I say this was teamwork at its finest, otherwise the action-packed, two-day Western extravaganza couldn't have been conducted so flawlessly. This is particularly significant when you realize this was our first try at it.

This was a time-consuming, expensive undertaking, to be sure. But when I heard some of the crowd reaction, I felt everything we contributed to the success of this venture was well worth it.

It's rather gratifying to have people come up to you and say, "This was the greatest thing that ever happened out this way."

It's never possible to give proper credit to everyone who contributed to the success of any project, but I feel I should single out several people who went out of their way to make the Horse Swapping Days and Rodeo the success it was. We are indebted to the following for their contributions:

Orris Sommers of Summer Lake, who provided the bucking horses.

Bill Mattis of Ft. Rock, who supplied cows and calves for roping.

Lakeview Roping Club, which supplied steers.

Loren Corwin, who supplied Mexican horned steers for bulldogging and team roping.

Ernie Messner, Schumacher Ranch foreman, who acted as Arena Director and set everything up in perfect order.

Pat Hayes, cow boss for View Point Ranch, who provided chute help and loaned us stock trucks for transporting cows and bucking stock.

Ken Morehouse, who was in charge of calf chutes and roping barrier.

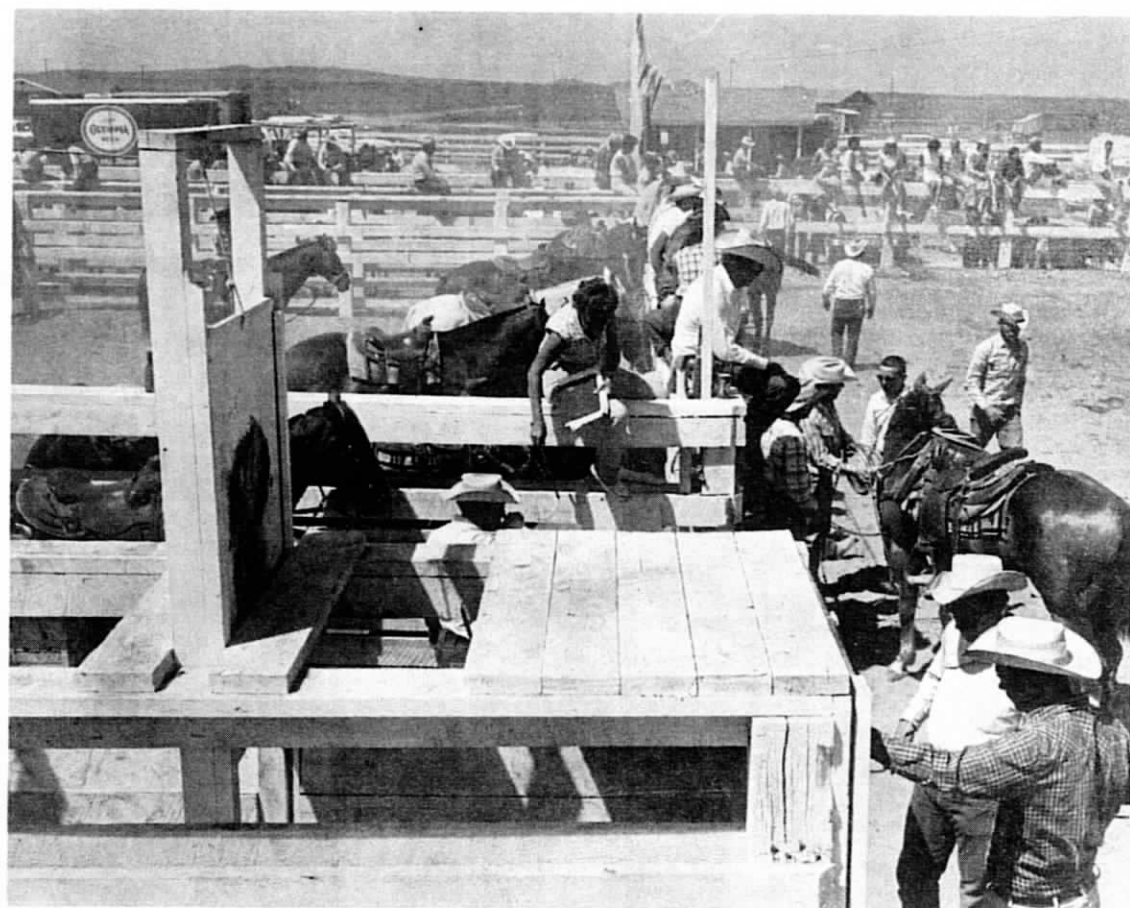

And, of course, Betty Morehouse. As Rodeo Secretary, Betty took over the complete planning of the event, even to ordering the stock, which, by the way, was precisely right.

Space prevents me from naming others who I am sure also contributed to the success of our first such venture. As I mentioned, this was a 100% community project.

It had to be.

BEST SEAT IN THE HOUSE — Blas Monterrey, who was recently injured in an automobile accident, is shown happily waving American flag at Rodeo, cast and all. Blas, who escaped from Castro's Cuba and is employed at the Lodge, was lifted in the shovel scoop to fence level.

ACTIVITY IN THE COW CHUTES — Action wasn't just taking place in the Dude Ranch Arena. Here's a view of personnel working around chutes. They were busy inspecting equipment and checking numbers.

PENN POINTS

(Continued from Page 1)
NORTHERN CALIFORNIA
AHEAD TOO.

During the first part of the year employment increased modestly; unemployment decreased rapidly. CONCERN JUSTIFIED.

There is some pessimism because the rate of expansion is not sufficiently rapid to ensure a major boom. But the economy in most areas is operating at higher peaks than a year ago. In fact, it is at record levels in vital areas like unemployment, personal incomes and industrial production.

RESULT 10 YEARS FROM NOW.

Twenty-five million more vehicles on roads and streets.

Nearly twice as much traffic in major areas as now; traffic jams of crisis size unless some of the public begins to move further out on the land.

WHAT WILL THIS VAST INCREASE IN POPULATION DO TO LAND VALUES?

YOU KNOW IN THE NEXT 10 YEARS THERE WILL BE NO NEW LAND CREATED.

BUY LAND AND KEEP IT. SOME DAY IT WILL KEEP YOU.

See you next month . . . Penn.

Seeding of Fairways Begun at Golf Course

(Continued from Page 1)
for the water system. The sprinklers will cover a 180 to 200 ft. circle and will deposit $\frac{3}{4}$ of an inch of water every hour of operation.

About 3 miles of pipeline has been installed and tested for the sprinkler system.

Giuntini said the fairways now are being sown with a special blue grass seed. This winter Italian Rye will be planted to reinforce the blue grass.

Giuntini, who is an avid golfer and amateur golf course architect and designer, decided to make clay models of greens and approaches on a plywood board. He put in every detail and contour of the green at a scale of 10 ft. equals 1 in.

The big advantage is that the designer and superintendent can work with their tractor man on rough grading with a minimum of conferences and explanations.

Giuntini said he also expects to

WHOA, LIL' DOGIE — Cowboy leaves mount and gets ready to toss roped calf to the ground in exciting event during Rodeo. Calf apparently views impending clash with less than amused expression.

HORSE SWAPPING DAYS GREAT

(Continued from Page 1)
to thank all the nice people in the Valley and surrounding areas for their help."

It wasn't planned that way, but the Rodeo became a daylight to dusk competition because of the unexpectedly large number of contestants.

There were 160 contestants on Saturday and 170 on Sunday. Action prevailed from 2 p.m. to dark Saturday. In order to give everyone a chance, competition started at 6 a.m. Sunday and still didn't end until dark.

save about 50% less time for work on finishing detailed work around the greens.

The scenic Christmas Valley course will be 9 holes and will measure 3,405 yards but can be extended to 3,550 yards for tournament play. It is a sporty layout, demanding accuracy and shot placement to keep golfers out of water hazards and the few but strategically placed sand traps.

Next Spring 500 trees, mostly native to the area, will be planted to give the course additional beauty.

Lakeview Schools To Open Sept. 5

The Lakeview School Board announced Wednesday, Sept. 5, as the opening day for schools. Pre-registration will be on Friday, Aug. 31. A full day of classroom work was scheduled for Sept. 5. The cafeteria will be in operation that same day.

It was a phenomenal turnout for such an event. Contestants came from many states to share in the whopping \$4,960 in prize money.

"It required six weeks of planning to put on this Western extravaganza. We're very pleased such an undertaking went off without a hitch," said president Carlo Giuntini.

To visualize the scope of the work connected with the Rodeo, 12 men were needed to work just at the chutes. Sixty-one horses, 32 cows, 31 calves and 31 steers were used in the Rodeo.

CHAMBER NOTES IMPROVEMENTS

(Continued from Page 1)
sion of tourist traffic off of Highway 395 and 31, at Susanville, and reopened the subject of promoting a shorter route for Highway 395 along the east side of Honey Lake.

The Lakeview group was accompanied by Round-Up Queen Judy Elder and Princesses Mary Giese and Sharon Duval, who were chaperoned by Mrs. Eva Aurther.

Members attending the luncheon were Chamber President William Castle, Mr. and Mrs. Vancil Withers, Mr. and Mrs. Ralph T. Renner, Ed Casto, Bob Utley, Glenn Tyler, Cliff Partin, County Judge C. W. Ogle, James Lamplins, Commissioner Jewell Corum, Verne Colvin, Trow Long and Cameron Cliff.

Rodeo Winners, Prizes

ALL AROUND COWBOY — Gene Jordan, Mitchel, Ore.
SATURDAY, JULY 21, WINNERS

BAREBACK RIDING

1-2—Tommy Russell, Prineville, Ore.	\$ 98.00

Saddle Bronc Riding—Trophy Buckle Winner Gib Gregg, Dayville, Ore.

1—Gib Gregg, Dayville, Ore.	\$ 80.00
2—Bob Rogers, Lakeview, Ore.	60.00
3—Steve Schnabele, Crane, Ore.	40.00
4—Tony Bothun, Lewiston, Ida.	20.00

Cow Riding—Trophy Buckle Winner Gene Jordan, Mitchel, Ore.

1—Dave Elford, Vancouver, Wash.	\$180.00
2—Gib Gregg, Dayville, Ore.	135.00
3—Gene Jordan, Mitchell, Ore.	67.50
3-4—Bob Wishart, Paisley, Ore.	67.50

Calf Roping—Winner of Trophy Buckle John McFarlane, Brothers, Ore.

1—Dale Perry, Lewiston, Ida.	\$ 92.00
2—Gary Madison, Terrebonne, Ore.	69.00
3—Jim Perry, Eagle Point, Ore.	46.00
4—Dick Perry, Eagle Point, Ore.	23.00

Team Roping—Winners of Trophy Buckles Dale Perry, Lewiston, Ida., Tom Hall, Boise, Ida.

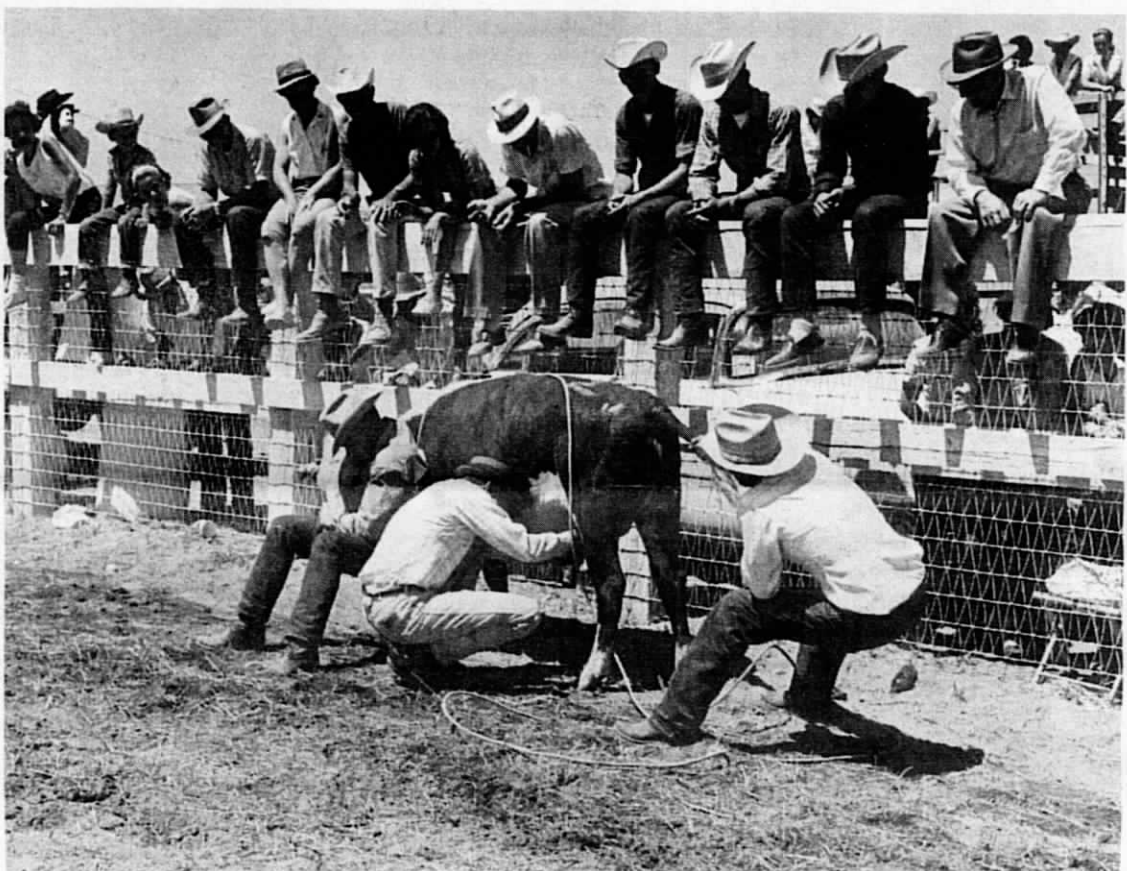

1—Pete Sturza, Redmond, Ore.	\$212.00
1—Gil Ticoulot, Prineville, Ore.	212.00
2—Bill Armstrong, Lakeview, Ore.	159.00
2—Ralph DeGarmo, Lakeview, Ore.	159.00
3—Dale Perry, Lewiston, Wash.	106.00
3—Tom Hall, Boise, Ida.	106.00
4—Jack Houston, Beatty, Ore.	53.00
4—Wayne Smith, Beatty, Ore.	53.00

Bulldogging—Winner of Trophy Buckle Pete Sturza, Redmond, Ore.

1—John McFarlane, Brothers, Ore.	\$ 40.00
2—Pete Sturza, Redmond, Ore.	30.00
3—Jack McCarthy, Redmond, Ore.	20.00
4—Gary Madison, Terrebonne, Ore.	10.00

GRAND ENTRY MAKES IMPOSING PICTURE — Several riders carrying flags and banners and hundreds of spectators listen attentively to the playing of our National Anthem. Immediately after this heart-tugging scene, action began in the thrilling two-day, Western production here.

WILD COW NEEDS FRIENDLY PERSUASION — Phil Washington, General Project Manager at Christmas Valley, milks wild cow with soft drink bottle as receptacle. One mugger holds the cow's head while another lends assistance by holding onto bovine's tail. Note amused expressions of the spectators on fence. Washington scored the major upset of the day when he beat Chick Chaloupka, Lake County District Attorney, in their long awaited feud in the Wild Cow Milking Contest.

Barrel Race—Winners of Buckles Bonnie Nordman, Redmond, Ore., Odonna Hanna, Bend, Ore.

1—Odonna Hanna, Bend, Ore.	\$ 28.00
2—Helen Iverson, Silver Lake, Ore.	21.00
3—June Cormie, Lakeview, Ore.	14.00
4—Virginia Vaughn, Paisley, Ore.	7.00

Cow Horse—Winner of Trophy Buckle Mel Rosebrook, Silver Lake, Ore.

1—Terry Cahil, Adel, Ore.	\$ 36.00
2—Jim Brooks, Silver Lake, Ore.	27.00
3—Evan Carlon, Summer Lake, Ore.	18.00
4—Mel Rosebrook, Silver Lake, Ore.	9.00

POLE BENDING (Ages 8-12)

1—Sandy Dollarhide, Christmas Lake, Ore.
2—Ricky Gage, Silver Lake, Ore.
3—Linda Kittredge, Fort Rock, Ore.
Winner of Trophy—Sandy Dollarhide

KEYHOLE RACE (Ages 8-12)

1—Suzanne Gillette, Christmas Lake
2—Linda Kittredge, Fort Rock, Ore.
3—Eddie Gage, Silver Lake, Ore.

SOS Means Salmon Or Steelhead in Oregon

BY LEROY HARROD,
Fishing and Hunting Editor

S O S (.), Webster's Dictionary defines the symbol or letters, S O S, as "The code signal for assistance or help adopted by the Radiotelegraphic Convention in 1912 and used when ships, airplanes or individuals are in distress and in need of HELP or ASSISTANCE."

To the Native Oregonian Sportsman, Fisherman and "man about town" the signal letters, S O S, (.) mean but just one thing, SALMON OR STEELHEAD.

Each year in early spring from about March to June the signal, S O S, is heard on Radio, TV, Newspapers, and more often by "word of mouth" to tell the world, and particularly those hardy and sturdy souls who fish for SALMON and/or STEELHEAD, that the "Run" is on that FISHIN' is the first order of LIFE. Business, Love-Affairs, Money-making, Religion or any form of daily chores are considered as secondary, and in so far as the SALMON or STEELHEAD fisherman is concerned such things can wait and be taken care of later.

Way of Life

For many years during my annual migration to Oregon for SALMON OR STEELHEAD Fishin' I have noticed this "Way of Life" in the many towns and villages in this SALMON OR STEELHEAD country. It is not uncommon to find a sign on the door, or in the window, of a store or shop, where perhaps you wanted to purchase something, or just wanted to drop in and talk a bit, which reads, "S O S, (.) C L O S E D. Will return when I have caught my 'limit', which should not be very long. Thanks for calling. Come again. Why don't you 'go Fishin' " too, and LIVE LONGER!"

Everybody Goes Fishin'

When the S O S signal flashes on it is not only the Native Oregonian who "drops everything" and "goes Fishin'" but thousands of "Out-of-Staters," or Foreigners, as the Natives call 'em, move in for periods of from a few days, a couple of weeks and many for the entire season of from three to six months.

As an example of this "out-of-state" migration in answer to the signal S O S there is a small town along the Coast above Coos Bay and located at the mouth of one of the great SALMON Rivers which has a big Road Sign on 101 Highway just at the edge of town which reads: "POPULATION — Winter Months 30. Summer Months 30,000." The figures might be slightly "blown-up" but they serve as a good indicator of what happens when the S O S Signal is flashed.

Other Things To Do

Besides the popular sport and "business" of SALMON OR STEELHEAD Fishin' there are many other "things to do" which make for a long to be remembered vacation for the entire family.

I have a friend in Long Beach, California, who is long retired from business back in Kansas. He and his lovely wife live in a "swank" own-your-own apartment. They are quite "social" in their "way of Life" until they hear that S O S signal in early spring.

Right then the "Social Life" comes to an end. They take off in their well equipped trailer and spend the entire summer and fall in several different beautiful State or U.S. Forestry Camps along Oregon's West Coast. He is the Fisherman of the family and he works at it most every day. Most of his daily "catch" he has

canned at the local Sportsman's Cannery.

A few of the choice fish are smoked. He does this job himself in a portable smoke-house which is a permanent part of the Trailer equipment.

His wife is not much for fishin' but she loves to wander about in the forests and along the beaches and inlets and pick wild huckleberries, blackberries and gooseberries which she carefully "lugs" home to the trailer where she "puts-up" jellies, jams and the whole fruits for pies, cobblers and different delicious deserts.

She is also an expert MUSHROOM "hunter." These she cans and dries for use during the winter months when the "Social Whirl" is on. There are more than 50 varieties of MUSHROOMS to be found along the Oregon Coast. If you don't know a MUSHROOM from a TOAD STOOL ask the "Natives." They will tell and show you "How to gather Mushrooms." It is fun and they make mighty good eatin'.

Pattern of Life

Literally hundreds of "Out-of-Staters" follow this same "Pattern of Life" year after year. More and more of them are "catching on" to this "easy way of Life" and the number increases each year. Parking and Camping spaces in the State and U.S. Forestry Camps are taxed to capacity from early spring until after Labor Day, early in September.

If you can arrange to go after Labor Day you won't be crowded and usually the Fishin' is at its very best in September and October and on until the rains "muddy" up the streams. More spaces in the STATE and U.S. Forest Camps are being provided each year and more Fishermen and Vacationists are using them each year.

NOWHERE, I say NOWHERE, can you find such beautiful and well operated Camps and Parks. At my last Count there were more than 200 Camps and Parks along the Oregon Coast line. That's not counting Privately owned Camps.

Free for the Taking

When you get hungry for CLAMS just roll up the legs of your pants (both Ladies and Gentlemen) and wade about in any of the many inlets or along beautiful sand beaches.

Take a garden fork or small spade with you. When you see small holes in the sand start digging — but dig fast as those CLAMS are fast diggers themselves. You'll find "LITTLE NECKS", "RAZOR" and "BUTTER" CLAMS most anywhere but ask the Natives or one of the "Foreigners" who may be "digging" and they will tell you where the "best" CLAM "grounds" are. There are OYSTER BEDS, too — all FREE for the taking.

While you are "CLAMMING" keep your eye peeled for exceptional pieces of Driftwood. It is everywhere along the water front and is also FREE for the taking.

Wild Berries

The woods and roadsides are full of WILD Huckleberries, blackberries and Gooseberries — all FREE for the picking. Wild Blackberry vines or bushes grow quite tall and very thick. These

ROYAL CHINOOK SALMON — Fishing Editor LeRoy Harrod is shown with 37½-lb. Royal Chinook Salmon he caught from the "Jaws" of the Rogue River at Gold Beach and Weddeburn, Ore. Point where the Rogue flows into the Pacific Ocean is called the "Jaws." It is here the salmon come from the ocean into the fresh water of the Rogue.

berries are the best in the fall when they are "dead ripe". They are particularly favored by the homes in the nearby forests.

SO, BE CAREFUL when you are picking Wild Blackberries. If you run into a Bear just move on and let him alone. Find yourself another Blackberry bush. Several years ago I was spending a week STEELHEAD Fishin' up on the ROGUE River at Agness.

Not far from the little store there was a Wild Blackberry "Bog" which covered perhaps 3 acres. It was late in September and the berries were "dead ripe" and sweet as sugar. I told "Old Man Riley," the Store Proprietor, that I was going to gather some berries. He said IF you run into a Bear just let him alone and move on.

I was having the time of my life gathering those juicy wild blackberries when I heard a noise like someone walking through the thick bushes. I pulled back some branches and there stood a big Black Bear looking me right in the eye. I started to move out and I think the Bear had the same idea. Anyhow there was a mad scramble to get out of that Blackberry "bog." I got out but I was pretty well scratch-up from the berry thorns.

When I got back to the store "Old Man Riley" looked at me and said, "Well, who won, you or the Bear." Didn't I tell you to watch out for the Bears." Since then I've always been very careful to "Watch out for the Bears," particularly at "Berry Pickin' Time." I would advise you to do the same but don't let those "Berry Hungry" Bears scare you away from those big delicious "sweet as sugar" Wild Blackberries. I'm quite sure the Bear

is just as scared of you as you are the Bear.

I've never heard of anyone being attacked by a "Berry Pickin' Bear" but just play safe and don't try to run him out of "his" berry patch.

Dune Buggies

Along 101 Highway from just

north of Coos Bay to the lovely town of Florence you will drive through miles of the most beautiful SAND DUNES to be found anywhere. Several smart young fellows have "rigged up" what they call DUNES BUGGIES with over-sized tires and high-power engines in which you can have a roller-coaster like thrilling ride over the DUNES for a small fee. The entire Family would enjoy a ride or so over the DUNES in this DUNE BUGGY.

Climb the Rogue River

When you are at Gold Beach or Weddeburn on the ROGUE RIVER don't miss the thrill of "CLIMBING THE RIFFLES OF THE ROGUE." You will find two services offering this wonderful trip. One is by U.S. MAIL BOATS, known as ROGUE BOAT SERVICE. The other is by ROGUE JET-BOATS TRIP.

Both services operate from the waterfront at Weddeburn, just across the river from Gold Beach. This is a never to be forgotten trip. Schedules start about 8 a.m. and return about 3 p.m. The round-trip covers about 64 miles of perhaps the most beautiful and thrilling ride you'll ever find. The cost is only \$4.00 per person.

Lunch is served at either the LUCAS LODGE at AGNESS or at the SINGING SPRING RANCH, up river a short distance. The cost at either place is \$2.00 per person — children under 8 the charge is \$1.00. They call it LUNCH but "in my book" it is the most fantastic MEAL I have ever tackled.

All served COUNTRY STYLE at the LUCAS LODGE — Individual servings at the SINGING SPRINGS RANCH. ALL YOU CAN EAT and most everything served is either raised right on the ranches or caught from the ROGUE RIVER.

Such FRIED CHICKEN you've never eaten, and that CREAM GRAVY — bowls of it — fluffy mashed potatoes, several different kinds of fresh garden vegetables and in season platters of (Continued on Page 7)

KNOW YOUR FISH! SALMON OR STEELHEAD?

What is an easy way to distinguish between a Salmon and a Steelhead trout? That is a question often received from those who do not know their fish too well.

There are two simple features that separate them:

1. The coloration inside the mouth. If it is white then the fish is a Trout.

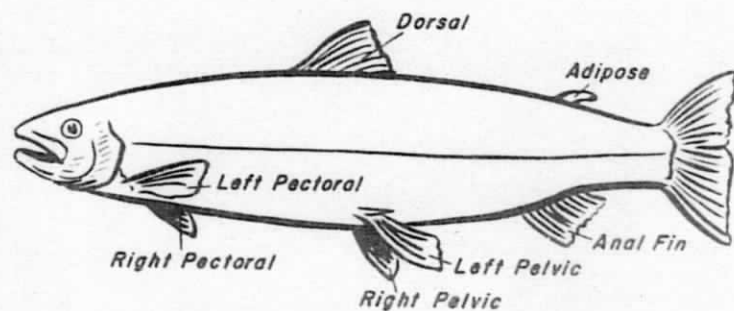

The mouth of a Salmon is black or has a dusky coloration. A CHINOOK's mouth is all black or dusky, while the SILVER has a black mouth with a white gum or tooth line.

2. The other feature is the number of anal fin (single fin back of vent) rays. If the rays number from 13 to 19, it's a salmon; a trout has only 9 to 12 of these rays.

Also helpful in a general way are the tail features. The caudal (tail) fin of a trout tends to be squarish while that of a Salmon usually has an inward curve. The caudal peduncle (portion of body just in front of tail) of a Salmon usually is more slender than that of a Trout, making a Salmon much easier to grasp by the tail.

KNOW YOUR FISH FINS

The Oregon State Game Commission is marking a considerable number of fish each year by clipping various fins. Anglers catching "marked" fish can contribute to the success of the program by sending in the information needed . . . species of fish, date caught, location and HOW marked. (See drawing below).

Some of Best Salmon Fishing Done in Fall

BY LEROY HARROD
Fishing and Hunting Editor

On this page is shown a map of the SALMON WATERS OF OREGON giving the location of a majority of the State's SALMON Fisheries. They are numbered to correspond with the "directory" of waters listed below.

SALMON fishing in Oregon is much like fishing anywhere in the world. Fish have their "days off" and oftentimes the lure that was a sure thing yesterday will not interest them today.

Consequently you may hear the phrase "YOU SHOULD HAVE BEEN HERE YESTERDAY." However, the information contained in this article is based on the knowledge of noted fishermen and trained authorities and the many experiences enjoyed by the writer during his more than 10 years of fishing these wonderful waters.

Here are the "HOT SPOTS" listed by name and number to correspond with the Map shown on this page:

Two Runs

1. COLUMBIA RIVER. There are two "runs" of Salmon in this great river. The "Spring Run" beginning about March 15th is done almost entirely by trolling and lasts until the melting snows in the mountain raise the level of the waters in the river and make it unsuitable for fishing.

The "Fall Run" of CHINOOKS and SILVERS is the Sportsmen's harvest and starts usually in July and lasts far into the fall.

The "Best Time," according to the "Old Timers" who have fished these waters for years on end, is from mid-August to mid-September and during this time much fishing is done up-stream clear to Bonneville by casting, trolling or anchor fishing from boats and barges.

Usually a No. 4 copper or silver spoon, spinners, flatfish or cherry-bobber type spinners are all equally effective.

CAUTION: This is a BIG RIVER and it is BIG WATER. If you have never "fished" it, I suggest that you employ the services of a competent Guide until you find out "what it is all about." Do not hesitate to ask questions. These OREGONIANS are mighty helpful and courteous folks and will be glad to help you "learn the ropes."

Great Bank Angling

2. WILLAMETTE RIVER. Good fishing in the Willamette River and Willametta Slough from St. Helens to the falls at Oregon City may be expected usually from about mid-March to May.

In June and early July, the fish move up-river, and anglers concentrate on the popular McKenzie and Santiam Rivers. Boats are used mostly on the McKenzie but the SANTIAM RIVER is noted for its bank angling.

3. NEHALAM RIVER. This is the first sizeable SALMON stream south of the Columbia. Fishing here is all by trolling. Many boats are available for rent if you do not have your own.

The CHINOOKS enter the river about August and run until late September. The SILVERS are here for the catching from August until October. Jack Salmon (two year old bucks) are in the river following the first fall rains. These weigh from 3 to 5 pounds and can be taken on light tackle and fresh egg bait. Spinners with feathered treble hooks are favorites on this stream.

Fish and Cheese

4. TILLAMOOK BAY AREA. While TILLAMOOK is known nationally for its excellent CHEESE, it is also known for

its EXCELLENT CHINOOK and SILVER SALMON fishing.

"Best Time" is from early September through late October. Besides the Bay fishing there are the WILSON and TRASK RIVERS which are heavily fished although the TILLAMOOK, MIAMI and KILCHIS Rivers also produce well. Try them all.

5. NESTUCCA RIVER. Many fishermen consider this the best SALMON fishing stream of the state. NESTUCCA and LITTLE NESTUCCA are noted for excellent June and July CHINOOK fishing in the tidewater areas.

The main Fall run follows beginning about August 1st and continuing through September. The SILVERS normally enter the river about September 20th and continue until the water freshens about December 1st.

Sport tackle is used with plugs and wobblers; mooching (trolling with Herring Bait) is also quite popular and productive. Get the "Natives" to show you how this "MOOCHING" is done.

6. SILETZ RIVER. HERE IS A HOT ONE for the "Beginner." A run of sea-run CUTTHROAT TROUT (Blue-Backs they call 'em) starts in July and usually lasts into late fall. These "CUTS" are "sporty" on light tackle or even a fly rod. For eating you can't "beat 'em."

THE BIG CHINOOKS enter the river in August and peak in September. The SILVERS begin their migration in late September and are at their best in October and November. Trolling is the best method in the lower river and bay while casting from the bank is productive and a "lot'a fun" upstream.

7. DEPOE BAY. This is a snug little harbor along 101 Highway in Lincoln County where many deep-sea fishing boats are berthed. These boats make several scheduled trips each day to the sea for SALMON and many deep-sea fish such as Red Snapper, Bass, Perch, and the cods during the summer season.

This is a "natural" for the whole family. Everything is furnished, including tackle. On shore you'll find facilities for shipping your catch and a Sportsman's Cannery where you can have your SALMON canned and packed to take home.

8. YAQUINA BAY. Don't overlook this one. CHINOOKS are caught in the Bay and River near Newport during August and early September. SILVERS run at the same time. From May through September deep-sea boats make regular or chartered trips on the ocean for SALMON and a variety of "bottom" fish.

Best Months Ahead

9. ALSEA RIVER. CHINOOK trolling in the Alsea River Bay is at its best in August and September. SILVERS begin their run about the middle of September with October the best month. BLUE-BACKS (Sea-run Cutthroat Trout) are caught here from July to November. Boats and tackle may be rented on the river at Waldport and above to tidewater.

10. SIUSLAW RIVER. This fine river has both a Spring and Fall run of CHINOOKS. The best of

the Spring Run is during June and July. The Fall Run is from about September 1st to October 15th.

The SILVERS enter the river about September 1st to October 15th.

The SILVERS enter the river after the first fall rains and are caught as late as January with October and November usually being the "top" months. Most angling is done from Florence to the railroad bridge at Cushman.

EXTRA SPECIAL: SILTCOOS and TAHKENITCH Lakes nearby have sometimes fantastic runs of SILVERS mainly during the months of October and November.

Loaded with Stripers

11. UMPOUA RIVER: SALMON fishing on the beautiful UMPOUA is good from its mouth at Reedsport to the dam at Winchester near Roseburg. EXTRA - EXTRA SPECIAL: This beautiful river and its tributary, the SMITH RIVER, is "loaded" with STRIPED BASS in the area up-stream from Reedsport to Scottsburg.

These "STRIPERS" will run from 5 to 30 pounds and they are "fightin' fools." If you inquire of the Natives about "STRIPER FISHIN'" they will quite likely just tell you that the SALMON are running and that they do not know much about STRIPERS but don't let that discourage you.

Take a Guide if you don't know the waters but don't overlook these STRIPERS. They will hit a trolled jig or spinner but just recently several adventurous Fishermen, including Ted Trueblood, probably the finest writer of Fishin' Stories and one of the best all 'round Fishermen in Western America, found by trial

that the STRIPER would hit a PLUG retrieved on the surface of the water as well as coming to the surface of the water to "smash" a big Streamer Fly cast in shallow water or around submerged logs or log booms.

The "Native" Fishermen in these waters didn't believe such a thing was possible, but it is. The writer experienced this "new" type of fishing for three days during September, 1961. This "STRIPER" discovery is a big story all its own and I'll soon devote an entire article to it. By all means if you stop on the UMPOUA or at SALMON HARBOR in Winchester Bay, give this "STRIPER FISHIN'" a try even though the "Natives" "Sneer" at it.

Mucho Mooching

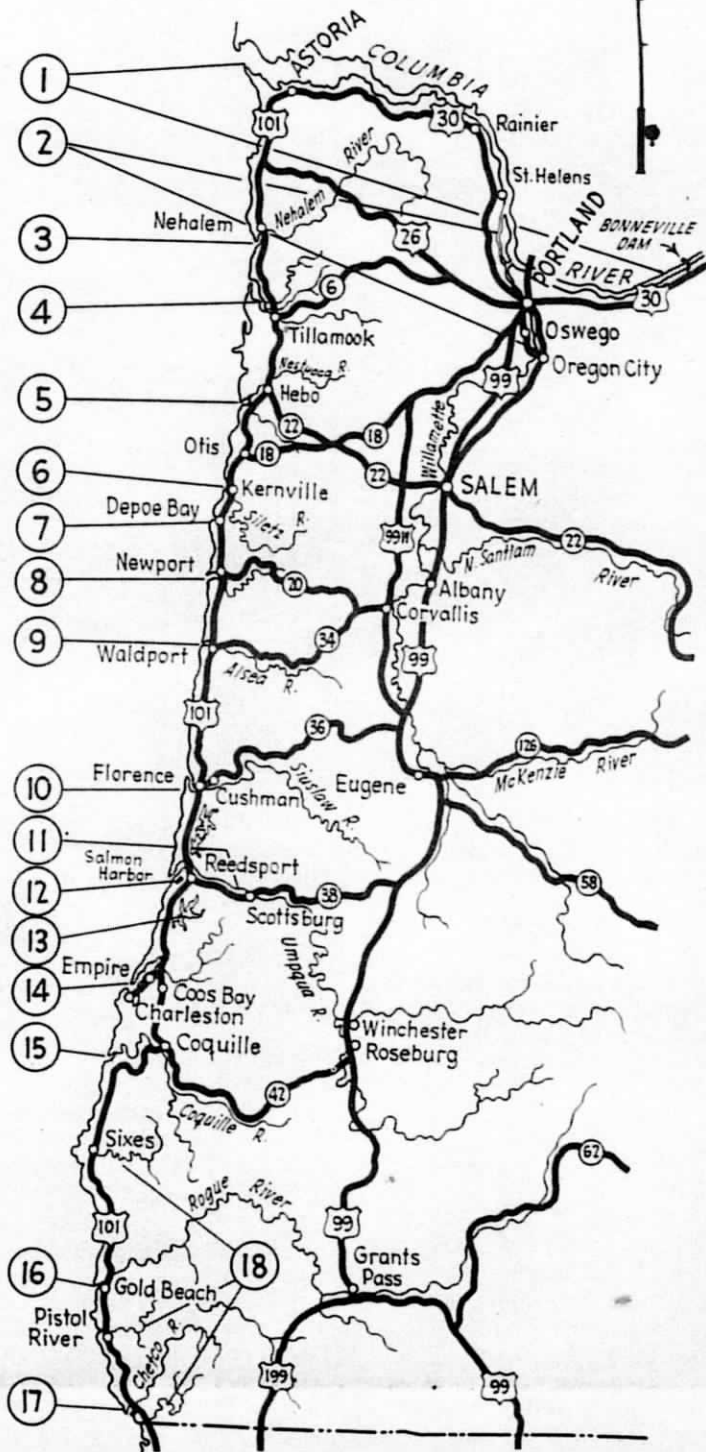

12. WINCHESTER BAY. Both CHINOOKS and SILVERS are caught by trolling, mostly with herring, (Mooching) during July, August and September. SALMON HARBOR has excellent facilities to accommodate the Fishermen.

It is part of the town of Winchester Bay. Boats, Guides and Tackle are available to those who wish to fish in the Bay, and "across the bar" at sea. Charter boats make regular trips. The entire family will enjoy this fine fishing.

13. TEN MILE LAKES. These lakes are open to fishing the year 'round. Famous for MAY FLY fishing in the months of late April and May. (See story on this excitable fishing in the Special Fishing Edition of the CHRISTMAS VALLEY GAZETTE printed and distributed in July 1962.) After the first fall rains in October, the SILVERS move into TEN MILE CREEK and TEN MILE LAKES and IF you can

Salmon Waters of Oregon

Described in adjoining copy →

make it up there about that time you'll sure "have a ball."

Delicious Clams, Crabs

14. COOS BAY and TRIBUTARY RIVERS and INLETS. The big run of CHINOOKS starts around July 15th and lasts until late September. SILVERS are caught offshore during July, August and until they enter the Bay late in September and the run continues until late November.

Facilities for Sport Fishing are similar to those at Winchester Bay. Here is a Bay with many beaches which are literally filled with Razor and Butter Clams, both delicious prepared in many different ways.

Big juicy crabs can be bought from "Crab Stands" along the Highways, usually priced at 3 for \$1.00. The area is famous for its many varieties of MUSHROOMS. An old friend of mine, Jack Flannigan, was a Specialist on Mushrooms. He had gathered and classified 53 different kinds from the shore line around Coos Bay.

I actually saw and helped him pick one which tipped the scales at 17 pounds. In the nearby woods you'll find Wild Blue and Red Huckleberries, Wild Gooseberries and everywhere there is an abundance of Wild Blackberries free for the picking.

15. COQUILLE RIVER. A good run of SILVERS provides the bulk of Salmon fishing in the Coquille, beginning about mid-September and extending into November. Most of the fishing is by boat with some bank angling up-river. A fair CHINOOK run enters the river in September.

Most Famous

16. ROGUE RIVER. This is probably the most famous STEELHEAD river in Western America. It is also famous for its ROYAL CHINOOK and SILVER SALMON fishing. IT IS MY FAVORITE of all of the fine SALMON and STEELHEAD Rivers in Oregon. There are two sections to the ROGUE, the upper river above Applegate to Savage Rapids Dam, a short distance above Grants Pass, and the LOWER RIVER near its mouth at GOLD BEACH.

I "fish" it every year and have found both CHINOOKS and SILVERS throughout the entire summer and fall. Some days are better than others but the fish are there — just "keep fishin'" and you'll get your share.

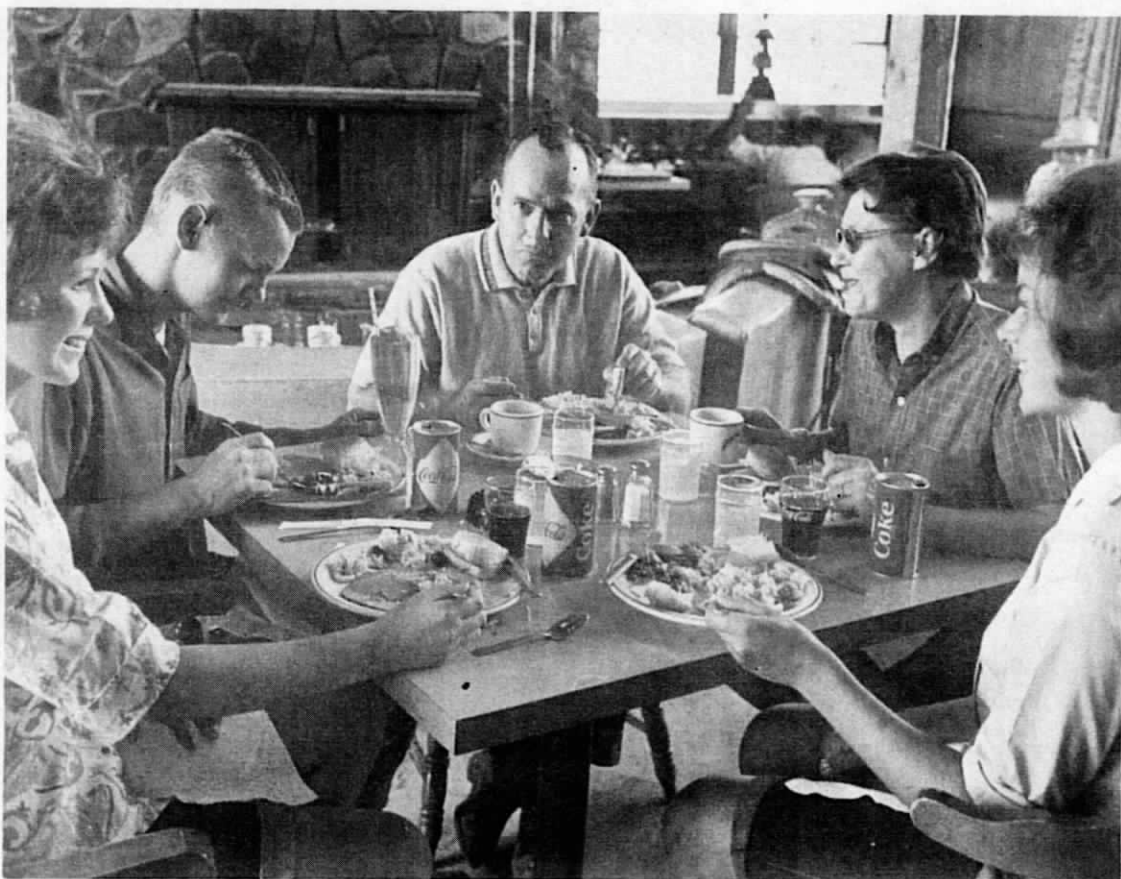

Last September, 1961, GARI, my wife, and I fished the lower river with that excellent guide, Lew Schmidt, who makes his headquarters at Weddeburn, just across the river from Gold Beach. We took our limits each day, delivered them to the Sportsmen's Cannery right there on the beach where our own fish were canned and labeled for us at a cost of only 25 cents per can weighing 1 pound.

Bargain Rates

You get a 1 pound can of SALMON for each pound of live fish you turn in to them at a cost of only 25 cents per can. We brought more than 100 cans home with us, gave some away as Xmas presents and have been enjoying "Salmon from the Rogue" on "special occasions" ever since and there is still quite a number of cans in reserve.

The STEELHEAD Fishing is best up-river and is done both from boats and by wading the riffles. This is the finest and most exciting type of fishing to be found anywhere. The fish will weigh from 3 to 10 pounds, will take both spinners and flies and are real "dynamite" when you hook one, especially on a fly in fast water. September through

(Continued on Page 8)

OREGON STATE REPRESENTATIVE ENJOYS LUNCH AT LODGE. — State Assemblyman Kessler R. Cannon, (third from left) takes a break from Rodeo activity for some delicious food at the Christmas Valley Lodge. From left, Kathi Le Blanc, son Robert, Cannon, wife Blanche, and Robert's friend, Miss Dyer.

GENE JORDAN IST RODEO CHAMP

Gene Jordan of Mitchel, Ore., became the first champion of the Christmas Valley Rodeo, thanks to a sensational riding performance. Gene beat out 229 other contestants for the title.

Besides a nice pot of cash, Gene was awarded a \$300 Hamley Roping Saddle, emblematic of the All-Around Championship.

On Saturday, Gene took first place in cow riding and fourth in bareback riding. On Sunday he took second in bareback riding and third in cow riding.

The All-Around Championship was figured on a point basis for six riding and roping events.

COMMISSIONER DINES WITH WIFE, FRIENDS — —Mr. and Mrs. Jewell Corum (right) enjoy lunch and sparkling conversation with friends, Mr. and Mrs. Leston Linebaugh, at \$100,000 Christmas Valley Lodge. Quartet watched action in Rodeo, then took a time out.

Shell Service Station Ready for Big Opening

Christmas Valley's first service station is expected to be open for business this week.

"We have all the tanks in and have the compressors and hoists just about ready to go," said Bill Stanfill Sr., who will operate the new Shell Station.

"We'll have wholesale and retail selling of regular gas, aviation gasoline, diesel fuel and other related products," he said.

The Shell service station will be located off Christmas Valley Road near the tie-down area on the west end of the Christmas Valley airstrip.

Newest Equipment

The sizeable concrete block building has a board and batt exterior in keeping with the general architecture of this area.

Stanfill said he would carry the newest and finest equipment to cope with any motoring problem.

John Kiesow Named New County Agent

John Kiesow will be County Agent here for a year while Oris Rudd is studying at Texas A&M College.

Kiesow has been with the County Agent's office in Clackamas County.

Rudd has been granted a sabbatical leave to study rural sociology and economics. During his absence Kiesow will occupy the Rudd home.

PHONE COMPANY ASKS FOR LIST OF NEW USERS

Christmas Valley businesses and population are expanding so quickly, telephone company officials want further information as to the growth of our community lest they find themselves with their lines down, so to speak.

J. P. Henderson of the Pacific Northwest Bell Telephone Company asked General Project Manager Phil Washington for a list of property purchasers who plan to settle down here in the immediate future.

The request was made so the company's expansion service program will keep pace with the rapid growth of Christmas Valley.

Property Owners who plan to move to Christmas Valley are asked to write Washington, telling him of the approximate date. Write to Box 888, Azusa, Calif.

SERVICE WITH A SMILE — Connie Baert pleasantly awaits order from customers in her new Christmas Valley Grocery Store. Baerts have good stock of groceries, will add hard goods line soon.

Business Brisk at Opening of Christmas Valley Grocery Store

Business was brisk at the opening of Christmas Valley Grocery Store.

Owners Al and Connie Baert expressed pleasure with the trade at their grocery and general merchandise store.

The store is located on the corner of Christmas Valley Lane and Christmas Tree Road. It is a spacious 2,000 sq. ft. building and is designed to carry a complete line of general merchandise, groceries, meats, vegetables and hardware.

"Now Christmas Valley visitors and Property Owners can save time and money by shopping right in their own town. You can get just about all you need," said Phil Washington.

Baert said, "We've got a very nice stock of groceries right now and will be adding to our inven-

tory as we go along. I'm in the process of adding inventory to our line of hard goods."

Washington said the store will also be the site of the Christmas Valley Post Office. "We're checking now with postal authorities to determine the necessary procedure for our own Post Office. We're fortunate in that we have an experienced person for conducting post office business.

"Al's daughter-in-law, Bonnie Baert, was in charge of the Ft. Rock Post Office," he said.

Spraying Sagebrush Ups Grass Growth

More grass and less brush is what Ft. Rock rancher Merritt Parks got when he sprayed 150 acres of sagebrush and rabbitbrush early in June with 2, 4-D. A helicopter was used for the spraying operation.

Parks can expect two to three times as much grass the year following the spraying. Within three years at least four times as much grass has been available on sprayed areas.

This is one method ranchers can use to buy more cheap feed for their livestock right at home. Parks figures to do this by getting more early spring use in the area before going onto Federal ranges.

Salmon and Steelhead

(Continued from Page 4)

the sweetest sweet corn you've ever eaten. Hot Biscuits about the size of a coffee cup and light as a feather served on big plates with usually about three different kinds of home-made jams and jellies and all of the WILD HONEY you can eat.

Take Camera

For Desert they bring on great platters of Home-grown MELONS in season, or if you are not MELON hungry there are big bowls of Wild Huckleberries or Wild Blackberries with pitchers of real pure COW CREAM — Pitchers of it, mind you.

While you are "filling-up" on that Golden Fried Chicken there are also platters of Prime Roast Beef, Swiss Steak and TROUT or SALMON, all of which sorta' play "second fiddle" to that FRIED CHICKEN.

The weather during summer and early fall is usually warm and clear but don't trust it too far. Showers (known locally as "Oregon Mist") are frequent so it is best to take some sort of "rain gear" with you on the boat. There is a lot more I could tell you about this trip but "take it" and get the surprise of your life. DON'T FORGET YOUR CAMERA — STILL or MOVIE.

For You Rock Hounds

For you "Rock Hounds" you'll probably think you have found "ROCK HEAVEN." The beaches and inlets are full of Moonstones, Agats and Sea-shells of many, many varieties, FREE for the gathering.

There are GEM SHOPS at many spots along Highway 101. Ask the Proprietor of the Gem Shops or the "Natives" for the "best places" to gather "raw gems." They will gladly tell you.

Big Juicy Crabs

For a lunch on your Fishin' trips or a picnic on the beach or among the great trees look up a "CRAB STAND" along Highway 101 or along the beach. Here you will find big "luscious" Red Cooked CRABS — ready to eat — priced at from 3 for \$1.00 to 50 cents each, depending upon size.

The CRAB STAND Operator, very likely an Indian, will clean and wash the CRABS for you or you can "do-it-yourself" by just lifting the shell off and washing the exposed portion with either salt or fresh water.

Sit down on a log or a table in one of the many Camps and crack

2 Duplex Homes Being Built By Private Firm

A new phase in the booming home construction program at Christmas Valley was introduced when the W-2 Construction Company of Bend, Ore. announced it would build two duplex homes.

Lyle Wildon, one of the principals of the company, said the homes, with attached garages, would be built on R-3 lots north of the Christmas Valley Lodge.

The duplex homes will be 1200 sq. ft. each, not including garage space.

General Project Manager Phil Washington said 100% financing for these homes is available to qualified Christmas Valley Property owners.

Homes All Sold

Washington also revealed the M. Penn Phillips Co. currently has five "A" Frame house under construction.

"It is significant that all the completed houses in Christmas Valley have been sold and are occupied," observed Washington.

the CRAB with any sort of a stick which can be picked up most any place. Don't worry about it being "messy". Just pick the delicious meat out and start "eat-in'".

I usually keep a small jar of Tartar Sauce or Mayonnaise and a package of Salted Crackers handy so when Lunch time comes all I have to do is get a couple of CRABS and I'm "in business."

If you feel like an "out-of-this-world" Desert just drop into most any Road-side Drive-In or Cafe and take on a "hefty" slice of WILD BLACKBERRY PIE topped with a "gob" of Ice Cream. If you do you'll probably order a second "helping."

Best Route to S O S Country

From Southern or Northern California points the most direct route to this fabulous S O S Country is to use Highway 101. (The new Golden Gate Freeway now by-passes the business section of San Francisco). Take the REDWOOD HIGHWAY (101) north from San Francisco.

Enjoy the beautiful REDWOODS but whatever you do stop in EUREKA, California, drive down on the water-front, just three blocks from the main business section of this fine town, to "L A Z I O S" FISH HOUSE, for the greatest FISH DINNER, LUNCH or Breakfast you could ever expect to find. "L A Z I O S" is located on a wharf right out over the waters of Humboldt Bay. You'll eat and watch the Fishing Boats unload their "catch" right in front of you.

The "atmosphere" of L A Z I O S is outstanding and the place is "as clean as a pin." I do not know where you could go to find such delicious FISH. The servings are "HUGE" from a wide selection of FRESH CAUGHT FISH, CRABS, CLAMS, OYSTERS and other types of Shell Fish.

The prices are exceptionally moderate for such quality food. I don't own any stock in L A Z I O S but I wish I did. It is an exceptional place and I'm sure you will never regret taking time out to pay it a visit.

You Enter S O S Country

About an hours drive north of Eureka you will cross the Oregon-California border and the CHETCO RIVER. From here on to The COLUMBIA RIVER you'll be in S O S Country.

Be sure to stop on the ROGUE RIVER. Look up LEW SCHMIDT, who, in my opinion, is the BEST GUIDE I've ever known. You will find him along the water-front at

Planting Safflower Crop May Add to Economy of Area

Christmas Valley ranchers may enhance the economic potential of the area with the planting of a new commercial crop—safflower.

Safflower is a prickly plant of the thistle family which produces seeds of safflower oil, the most highly poly-unsaturated oil now commercially available.

Commercial interest in the new crop has been prompted because safflower oils tend to reduce the serum cholesterol level in blood. Recent studies have shown that persons who suffered heart attacks had higher than normal amounts of cholesterol in their blood.

Growing 400 Acres

Because of this discovery, there has been an increased sale of margarine, salad oil and mayonnaise made with safflower oil.

About 400 acres of safflower is now growing in the field of Dick Weekly at Valley Falls.

County Agent Oris Rudd said safflower has a good possibility as a new local crop.

Weddeburn, across the river from Gold Beach, or phone him for a definite appointment.

If you have never caught a SALMON arrange with L E W to "show you how." It will cost you a few dollars but is well worth the price. Besides L E W will see that you catch your SALMON.

Don't forget to get your Non-Resident Fishing License.

ROGER—ROGER—ROGER

ROGER — Webster's Dictionary defines ROGER as a code word or signal used in Radio-telephone or Telegraphic communication meaning R E C E I V E D or I UNDERSTAND YOU after receiving an S O S Signal.

So I hope you will say, "R O G E R" when you finish reading this S O S (... — ...) SALMON OR STEELHEAD Story — pack your car or Trailer with your Fishin' Gear, Wife and Kids and head north into the fabulous S O S Country along the West Coast of Oregon.

When you are through Vacationing and FISHIN' swing east over the beautiful CASCADE Mountains and pay CHRISTMAS VALLEY a visit. If you will do all of this I'm sure you will find the "New Way Of Life" like they "live it" up in the S O S Country.

(Editor's NOTE: It will soon be Fall and Hunting Time. In an early forthcoming issue of the GAZETTE I'll tell you about the many kinds of fine HUNTING to be found in Oregon.)

What Visitors are Saying About Christmas Valley

IRA AND MARGARET NEAL—Canoga Park, Calif.—We have visited Christmas Valley for the very first time, and are very much impressed with what we saw, and felt that when this valley is more developed it will be a very nice place to live. A nice view of the mountains nearly every direction you look.

ALBERT NEWSHAM—San Francisco, Calif.—Like the parcel very much.

MR. AND MRS. FRANK T. COLLIER—Los Angeles, Calif.—Project interesting—will be back next year to see what changes have taken place.

E. A. VAUGHN—San Jose, Calif.—The one acre lot is all we expected and more.

HAROLD AND ALMA KING—Baldwin Park, Calif.—I have found the land as represented by agent.—NOTE—We hate to leave it.

MR. AND MRS. THOMAS H. MOORE—Azusa, Calif. — Impressed with the progress already made. Looks as though it will be a very desirable development.

GLORIA A. SNODDERLY—Rosemead, Calif.—Pretty country for pioneers spirits—good start.

CLIFF ENNIS—Long Beach, Calif.—A happy surprise, much better than I or we expected—good possibilities.

MR. AND MRS. ADAMS—El Cerrito, Calif.—We were taken on guided tour by Mr. Mel Brown and from what we saw and the talk we had I am very impressed. Things are really progressing at a good rate. In the six months since I was here I really noticed the progress.

MR. AND MRS. RALPH CHRISTIANSON—Mountain View, Calif.—It looks very encouraging and we are looking forward to seeing it again. Had a ride out to property and saw the model home. Seen a big improvement since last February.

MR. AND MRS. ELMER DODD—Bell Gardens, Calif.—Looks promising.

GEORGE ANDRO—San Jose, Calif.—Considerable progress and building has been completed since February.

MR. AND MRS. CLIFFORD PICMERSMA—Riverside, Calif. Looks like within a year or two it will be a nice place to live.

MR. VARNIS—Inglewood, Calif.—In the period of eight months the progress of Christmas Valley has been remarkable.

ATTENTION, ALL HUNTERS!

Deer season in Oregon opens September 29. Let Bill Stanfill, Christmas Valley, Oregon, arrange your hunting trip. Fly-in and guide service available. Can accommodate parties of all sizes. Get your reservations in early. Call Bill at 576-2212, or write Box 41, Silver Lake, Oregon.

HOMES FOR SALE

Now under construction—Two 2-bedroom homes with attached garages. Will meet FHA specifications. Adjacent to golf course. Can be purchased on easy terms. Contact Bill Stanfill, Christmas Valley—Box 41, Silver Lake, Oregon.

County Steps Up Road Repairing

Lake County engineers have been in the midst of an extensive road improvement program, all of which will make driving easier to Christmas Valley.

Crews have been busy repairing, resurfacing and ciling roads.

One of the important pieces of work is being done on Oregon 31, the main road which leads to Christmas Valley.

Activity has also been hectic within Christmas Valley.

Road Mileage Mounts

Project Manager Warren Morton reports that application of oil coating on road surfaces is continuing as fast as possible.

Morton said more than 150 miles of streets and roads have already been constructed in Christmas Valley with more going in every day.

Salmon Fishing

(Continued from Page 5)
early winter is best for STEEL-HEAD.

17. CHETCO RIVER. The Chetco is by far the best SALMON and STEELHEAD stream south of the ROGUE. Heavy runs of both CHINOOKS and SILVERS are present from about mid-August to October. Trolling is best in tidewater, but the best fishing is upriver casting from the bank.

18. SIXES, PISTOL and WIN-CHUCK RIVERS. These short rivers near the southern Oregon boundary have runs of SALMON, both CHINOOK and SILVERS and late in the season STEEL-HEAD. The SALMON runs are from about September 15th to late October. Fishing is done here by either trolling or casting.

\$42,218 in Federal Funds Approved for Airport Improvement

The Federal Aviation Agency has allocated \$42,218 in Federal funds for the proposed improvement work at the Lake County-Lakeview Airport, according to H. E. Bergstrom, commission chairman.

The project includes reconstruction of 4000 feet of the north-south runway with the addition of four inches of new base rock and new surfacing, reconstruction of the east end of the taxiway and the installation of drainage work at the south end of the runway.

Howard Goodnough, member of the Lake County-Lakeview Airport Commission, said attempts are being made to call for bids on the project as soon as possible in hopes the work can still be done this season.

Cost of the entire project is estimated at \$78,000.

Old Timers Interested in Development Here

Ft. Rock District Supervisor Nick Klerk brings word that many people in Portland are highly interested in and enthused over the tremendous development and progress at Christmas Valley.

Klerk, who attended the annual Lake County Homesteaders Picnic at Columbian Park in Portland, reported that 45 old timers at the picnic were all interested in first hand news of the Christmas Valley development.

Temperamental Kamloops Trout Have to Go

The Oregon State Game Commission is making things easier for Christmas Valley Property Owners and friends who want their share of fighting trout.

The Commission is stocking Diamond Lake with another strain of rainbow trout to gradually replace the Kamloops trout which have been known to be awfully fussy and temperamental.

The two primary reasons for changing:

1. Late Spring spawning habits of the Kamloops strain result in the fish still being in a dark condition for several weeks after the season opens.

2. The temperament of the Kamloops makes it difficult to catch at times.

300,000 Fingerlings Released

The new strain of trout is a native one developed from McKenzie and Deschutes rainbow brood stocks.

Approximately 300,000 fingerlings were released in Diamond Lake during last May.

Beauty Abounds At Horse Swapping Days

Beauty was prevalent during the first Christmas Valley Horse Swapping Days and Rodeo.

Besides Rodeo queen Bonnie Nordman and Horse Swapping Days Queen Toni Savage, guests were the 1962 Lake County Round-Up court of Queen Judy Elder and Princesses Mary Giese and Sharon Duval.
