Next Desert Whispers DEADLINE
7 DAYS PRIOR
 at 2:00 p.m.

DESERT WHISPERS

The intent of *DESERT WHISPERS* is to publish a variety of information from all aspects of life in North Lake County. We neither support nor condemn any ideas, creed, religion, custom, attitude, belief or law. Opinions expressed are not necessarily the opinions of the Christmas Valley Park and Recreation District Board members, staff, personnel or advertisers. The Christmas Valley Park and Recreation District is not responsible for errors in articles and/or ads submitted to be published without change. The Christmas Valley Park and Recreation District Board of Directors reserves the right to reject any submitted material for any reason.

DESERT WHISPERS welcomes letters to the Editor. Letters should be printed or written clearly. Each letter **must be signed**. *DESERT WHISPERS* reserves the right to condense long letters or to edit for content. We will avoid this whenever possible. *DESERT WHISPERS* reserves the right to judge the acceptability of a letter in regards to vulgarities, profanities, or slanderous content.

Deadlines for *DESERT WHISPERS* are at least seven (7) Days before issue dates of the 1st and 15th of each month. Please have your ad or article to the *DESERT WHISPERS* office BEFORE the published deadline. If the ad or article is NOT received by 2 pm on the deadline, it may not make it into that issue. Ads and articles can be received by mail, by e-mail, or dropped off at the office.

- The Editor

Renting the Christmas Valley Community Hall

The Christmas Valley Community Hall, located at 87345 Holly Lane, in Christmas Valley, is available for rent.

A refundable cleaning/damage deposit of \$50 is required for the rental of the building. The deposit will be returned if the building is left in the same (or better) condition as you found it.

At the conclusion of your event, if the heater in the main area of the hall is not turned down to 52 (as the instructions posted state), you will be billed \$9.00/hr for fuel, until the setting is corrected.

Call Christmas Valley
 Park and Rec for availability:
 541-576-2216.

Lake County Public Transit Operated by Lake County Senior Citizens Association

Christmas Valley to LaPine Shopping Shuttles are scheduled for 9/9 & 9/23. Other Wednesdays may be available upon demand. Please call to check for changes to this schedule.

LaPine Medical trips are on Tuesday mornings for the month of September.

Bend Trips Medical Only. 9/9, 9/10, and 9/21 mornings.

We are currently assessing the need for a medical shuttle to Chiloquin and would like to hear from anyone interested in this service.

Lake County Senior Center Transportation is operating under OHA requirements. Drivers are disinfecting vehicles between every trip, and keeping the recommended 6 foot distance between drivers and each family of riders. As Oregon is mandating that all Public Transit drivers wear face coverings on the job, we are also asking that all riders wear face coverings in our vehicles, for the safety of our drivers and other riders. If you do not have a face covering, one will be provided for you by the driver. If you have any questions about scheduling rides, or about policies, please call Anne at Transportation 541-947-4966 ext. 106.

Per OHA and ODOT requirements, passengers are required to wear masks or cloth face coverings. A bandana will do.

If you have OHP, please call EOCCORide Share at 877-875-4657 for non-emergency medical

Freedom of the Press

Devastating Brattain Fire Rages On

Photo InciWeb Brattain Fire

Photo James Williams

Paisley, OR - The Brattain Fire, reported as human caused, was discovered on September 7, 2020, approximately ten miles south of Paisley. It is currently estimated at 30,000 acres with 0% containment.

The Northwest Interagency Coordination Center (NWCC) reported that the fire is burning in sagebrush-juniper with stringers of Ponderosa Pine in steep, rugged terrain with limited access points and high winds. The weather forecast is for continued hot afternoon temperatures and exceptionally dry weather with high winds being a factor in contributing to fire growth.

On September 12th, the Lake County Sheriff posted a video on social media alerting Paisley residents that they were put on a level 3 evacuation (leave immediately) notice.

As of September 14, 2020, according to fire officials the East flank containment lines are holding and will be further secured, as well as finding opportunities to secure the South flank and do some indirect construction on the Northern flanks. The fire has been wind driven in a westerly direction and has crossed the Chewaucan River, Forest Road 33 and is in the old burn scar from the August 2018 Watson Creek Fire. With forecasted wind patterns and difficult terrain, concern remains that this fire could further impact the community of Paisley.

Recently the Eastern Area Incident Management Team transitioned with local fire management, allowing for more resources to be assigned to the fire. Efforts to secure fire lines and check residences on the southern portion of the fire has been the current primary focus as the fire continues to grow in this area.

Evacuations:

The Lake County Sheriff's Office has issued the following evacuation notices:

Level 3 (Go) – All of Paisley, from Red House Lane (north of Paisley), south on Highway 31 to Valley Falls/the junction with U.S. Hwy 395; All of Clover Flat Road from the intersection with Hwy 31 (Beachler's Corner) south to Valley Falls.

Level 1 (Be Ready) – From Red House Lane north along Hwy 31 to the intersection with Government Harvey Road/Forest Road 29.

The Red Cross has an evacuation area at the Lake County Fairgrounds in Lakeview (1900 North 4th St.). There will be fire information there as well.

Closures:

The Fremont-Winema National Forest issued emergency fire closure order 06-02-03-20-03 for the area east Forest Road 28 and south of Forest Road 29 (Government Harvey). Forest Road 29 is closed; Forest Road 28 remains open. Forest Road 33 is closed at the Forest Boundary south of Paisley to the junction with Forest Road 28. Forest Road 3510, which makes the southern edge of the closure area is closed, as is Forest Road 3510-018 from Clover Flat Road to the Forest Boundary, and Forest Road 3315 at the intersection with Mill Street in Paisley. All recreation sites within the closure area are closed.

Christmas Valley Park and Recreation District invites everyone to enjoy the Park and Rec properties.

We ask that while enjoying the properties; specifically, the Golf Course, the Rodeo Grounds, the playground, the multi-use field and Baert Lake, that you be a good steward and please do not litter, please maintain control of your pets by keeping dogs on a leash and/or maintaining constant supervision. If your dog should defecate on the premises, please be sure to pick up after it.

Horses and camping are only permitted at the Rodeo Grounds.

Being good stewards and taking pride in these properties reflects on our community as a whole.

Thank you for your continued support of Christmas Valley Park and Rec.

North Lake Health District
is looking for a licensed Day Care Provider to operate services in our annex building on Spruce Road, Christmas Valley.

Licensed providers please contact the local District Office @ 541-576-2165 and leave a voice mail with your name and phone number. Your message will be returned within 5 business days for more details and appointment to view the facility and discuss details.

If you were to ask this question of Chad Waldron, the North Lake High School Agriculture Science and Technology director, he would say that the future looks bright, if his program and his students are any indication.

As a team the North Lake FFA has won or placed in the State Soils CDE over a dozen times, and has competed at the National FFA Soils CDE in Oklahoma City three times; earning top 20 team honors twice.

North Lake FFA has placed 1st in the District soils for 15 years, and placed 1st or 2nd in Shop Skills the last 20 years. They also have several banners representing top honors in Tractor Driving, Crops and Parliamentary Procedures.

Representatives of North Lake FFA have attended the National Convention in Kansas City, Louisville and Indianapolis six times; the Washington Leadership Conference in Washington D.C.

seven times and the National Soils CDE in Oklahoma City three times.

Mr. Waldron and his four brothers grew up on a dairy farm in Idaho. While attending West Side High School, which sits at the base of the Rattle Snake Mountain in Weston, Idaho, he was very active in FFA achieving many individual student awards and achievements including, State and American degrees and Public Speaking awards. He participated in Livestock Judging, Parliamentary procedures, Crops and Ag Mechanics. He also played football, wrestled, and was a member of the high school drama club.

Mr. Waldron's most cherished memories of his FFA experience are the Idaho CDE days in Moscow, Idaho that took place in the summer months. It was an eight day trip. On one occasion, they took 2nd in Livestock Judging and spent two days floating the

Coeur d' Alene River with friends and their advisor, Mr. Summers. Mr. Summers recently retired after teaching for 43 years at West Side High School. He received National recognition and several awards for teaching. Mr. Waldron credits Mr. Summers for much of his own teaching style and philosophy. He was truly a great mentor and teacher.

After high school, Mr. Waldron attended Utah State University where he was part of the Collegiate Livestock Judging team.

He graduated from Utah State University with a Bachelors of Science in Agricultural Education, and later attended Oregon State University where he graduated with a Masters in Education.

His career in teaching began at North Lake High School in 1995. He says that he has stayed here because the community has treated he and his family so well since the first day, and

PUBLIC NOTICE**Lake County ALERTS**

Sign up to receive emergency alerts and severe weather warnings that could directly impact you and your family.

Lake County is able to send you emergency alerts via text message, email, pager, or voice mail (in extreme cases), based on your preferences. It is important that we collect this contact information because many households no longer utilize traditional land-based telephone lines.

The system is intended to be used for emergency alerts, as well as non-emergency incidents that may have significant impacts to residents. Emergency Alerts could be related to specific hazards that require some kind of action be taken such as fire evacuation, shelter in place, boil water orders, etc. Non-emergency alerts could include significant transportation problems with prolonged impacts or significant ongoing police or fire activity. This list is not meant to be all inclusive, and demonstrates that this system will not be used for routine information. In addition to receiving information on your wireless device, you may also receive notification on your land telephone line (if you have one) depending on the type of incident or event.

Please provide your address and preferred method(s) of contact. Adding your address will allow tailoring so you do not receive alerts that don't pertain to your geographical area.

These alerts are provided free of charge, however standard text messaging rates and other charges may apply.

If you wish to subscribe to SMS text messages only, text your zip code to 38276. There is also a mobile app available.

To sign up online go to: <https://public.alertsense.com/SignUp>

**LETTER TO
THE EDITOR**

Dear Editor,

My name is Katie Mannina and I'm an AmeriCorps VISTA living in Lake County for a year. Part of my assignment is to get to know all of the communities in the county, and I would like to meet and talk to people from all ages and backgrounds in the North Lake area to hear about what makes your community unique. If you are interested in sharing what your town is like, including the strengths as well and the challenges you experience, I would love to hear from you. I will be at the Christmas Valley community hall from 2-5pm on Monday, September 21st, and there will be light refreshments. I hope to be there regularly if there is enough interest! Feel free to contact me with any questions. I look forward to meeting you!

Thank you,

Katie Mannina

The AmeriCorps VISTA Summer Associate program offers individuals the opportunity to become engaged in a community through an existing AmeriCorps VISTA project for 8, 9, or 10 weeks during the summer. Since 1965, over 220,000 VISTA members have served with the mission to strengthen organizations that alleviate poverty.

BACK IN THYME

By Linda McCoslin

Exotic Plants

Coffea arabica L. Madder

Family: Rubiaceae

Imagine a sunny day in the distant past perhaps a thousand years ago, perhaps much longer. A band of African warriors enters a damp highland forest dense with the glossy undergrowth of 12 to 15-foot-high broad leaved evergreens. Clustered at the leaf axil of these shrub-like trees are rounded, deep red berries, no larger than the first joint of a mans little finger. The men know something in the berries helps them to perform great feats of strength and bravery, so they pucker a large supply of berries to chew in preparation for the battle that lies ahead.

That "something" is caffeine. It stimulates the central nervous system; the flow of blood is increased, especially through the coronary arteries that feed the heart; the heart itself beats a bit faster; muscles respond to the urgent pulse; the kidneys work a little harder; breathing is stimulated; so is cerebral activity. One is more alert and ready to face the day.

After five or six cups, the mild stimulation is transformed into restlessness, irritability, feelings of nausea, even muscle tremors and mental instability. One has overdosed on the worlds most popular drug.

Caffeine, derived from the two grayish seeds in each fruit of several *Coffea* species, identified in 1821 but was mistakenly thought

to contain quinine. Today there is decaffeinated, made by removing the caffeine while leaving the oil, called *cafeol*, responsible for the beverage's distinct aroma and flavor. The extracted caffeine is sold to the pharmaceutical industry for incorporation into pain remedies, where the stimulating effect helps rush aspirin and phenacetin into the system. It is also a cardiac and respiratory stimulant, of value in fighting overdoses of alcohol, barbiturates, and morphine.

C. arabica, originated in Ethiopia, then was introduced into Persia, Egypt, and Arab lands. For a long time, roasting grinding, brewing, and consumption, were the province of priests and medicine men. By the 15th century, Mecca had several coffee houses. The church tried to ban the "infidel drink" in Rome.

By mid-17th coffee drinking had become highly fashionable in London, Paris and Berlin.

Arabs monopolized coffee through the port of Mocha - hence the name. Forbidden to export plants or unroasted seeds, the Dutch in 1690 smuggled some seedlings, setting up coffee plantations in "Java" - another name.

In the 18th century coffee trees were taken to Martinique and Jamaica, where they flourished.

Today coffee is a major worldwide industry.

page 13

due to the community's support and insistence on having a quality, well funded, Ag Science and FFA program.

Mr. Waldron says, "The philosophy that I have developed within the North Lake Ag. program is the more shop, projects and hands-on education, and the less classroom seat time and paperwork the better. This emphasis and focus of education and activities during class time and throughout the day shows in our FFA achievements. We do well in those kind of contests and career development events."

This 2020-2021 school year High School Senior, Justin Sharp, has been elected as the North Lake FFA President. Justin says his main focus is CDE- Career Development. He enjoys the Leadership events and looks to be a delegate at the District or State level. Justin has been in the North Lake FFA program for four years. He plans to attend college after graduating high school, and will perhaps pursue a degree in Ag Communications.

Recently, in an interview with the Lake View Examiner North Lake High School graduate, Jillian Rudolph, credited her involvement with the North Lake FFA program for giving her the confidence to apply for and obtain a college scholarship, and to choose an ag path. She is attending OSU pursuing a degree in rangeland sciences with a sustainable livestock ranching option.

Continued on page 17

Agriculture Continued from page 16

When asked what Mr. Waldron's vision for the future of the Ag Science and North Lake FFA program is he responded: "North Lake is a very traditional Agricultural Education program, but we are also progressive and have to prepare students for career success in the modern world. We can't be content with the old 'Cows & Plows' model. Career Technical Educational programs have to evolve and train students to be prepared for high wage, high demand jobs.

I would like to continue to build a program that focuses on real life, relevant education to prepare students for careers. In addition to the daily routine and regiment students get from me about how to be successful in career: 1. Show up. 2. Show up on time. 3. Show up sober and clear headed; I also want to increase the training and preparation for students to be ready for the trades: electricity, plumbing, construction, HVAC, auto and diesel mechanics, manufacturing, concrete, drywall and flooring, plasmaCAM, AutoCAD, GPS, computers and other shop technologies. My vision is to focus more on the skilled trades and technician areas of employment, and see more of these kind of SAE or/and summer projects rather than just the traditional county fair animal projects. I think this is where employment and job opportunities are going to be and is the best service and education that we can provide to the students and community as a whole.

Conley Kittredge, Brad Libolt, and Chad Waldron practicing for the Soils Judging Contest in Oklahoma City at the National Soils Contest in 2014.

The National FFA Emblem dates back to 1926 when Henry Groseclose was working on developing the Future Farmers of Virginia constitution and bylaws. Digging through some ag materials from Denmark, Groseclose stumbled upon an image of an owl perched on top of a spade. From there he worked with R.W. Cline, a graduate student at Virginia Polytechnic Institute, to further develop the image, resulting in the FFA emblem we see today.

We recently used measure 98 money to hire a teacher with a current contractor license, and built an 'Ag. Structures and Trades' building where we hope to do a lot of this kind of education and training. I also hope to redirect much of our FFA summer program to help students with these type of SAE projects and interest."

Mr. Summers should be very proud. There is no bright shiny Award that can compare to what a legacy he has bestowed in the student he mentored to become the outstanding educator that North Lake High School has in Mr. Waldron.

Justin Sharp receiving the Star Greenhand Award at the 2017 Annual North Lake Banquet.

A GLIMPSE INTO THE TIME CAPSULE

Christmas Valley Rodeo 1964

PUBLIC NOTICE

Oregon DEQ on Air Quality

Statewide, OR—The Oregon Department of Environmental Quality, Lane Regional Air Protection Agency and the Southwest Washington Clean Air Agency extended an air quality advisory for all regions of Oregon and Southwest Washington due to fires in Oregon, Washington and California.

DEQ expects the air quality advisory to last for quite some time. DEQ and partner agencies will continue to monitor smoke in the state and Southwest Washington.

**** Se publicará información en español próximamente ****

Smoke levels are fluctuating between unhealthy for sensitive groups (orange) and hazardous (maroon) in these areas. When smoke levels are hazardous everyone needs to take steps to protect themselves. Areas closest to fires – such as Salem, Eugene, the Rogue Valley, the Klamath Basin, Central and eastern Lake County and Roseburg in Oregon, and Woodland in Washington – are having the worst smoke impacts.

Several highways and roads are closed around Oregon.

Check TripCheck for the latest information.

Oregon Emergency Management officials are asking the public to only call 911 to request emergency services and not to call 911 to report smoke.

The Oregon Health Authority asks the public to refill prescriptions at pharmacies and not to go to emergency rooms to refill them. They also advise that you refill them as early as you can and, when possible, keep extra on hand.

Smoke levels can change rapidly depending on weather. Check current conditions by visiting DEQ's Air Quality Index or the Oregon Smoke Information Blog, downloading the free OregonAIR app on your smartphone, or going to on the U.S. Environmental Protection Agency's Air Now.

Smoke can irritate the eyes and lungs and worsen some medical conditions. Young children, adults over 65, pregnant women and people with heart disease, asthma or other respiratory conditions are most at risk.

Protect your health when smoke levels are high:

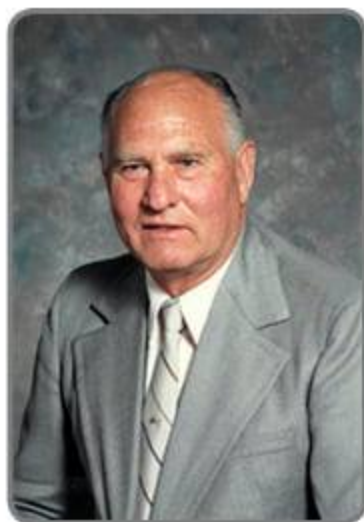

- Avoid outdoor activities and stay inside if possible. Keep windows and doors closed.
- Be aware of smoke in your area and avoid places with the highest levels.
- Use high efficiency particulate air (HEPA) filters. These can be portable filters or can be installed in indoor heating, ventilation, cooling and air purification systems. You can also create your own air purifying filter by following these easy to follow instructions: DIY air filter factsheet.

- If you have heart or lung disease or asthma, follow your healthcare provider's advice.
- Consider leaving the area if smoke levels are hazardous and you have heart disease, asthma or other respiratory conditions. Otherwise, please wait to be directed to evacuate. Pay attention to evacuation notices. If you choose to leave the area, remember to take face coverings and hand sanitizer with you to help protect yourself and others from COVID-19.

Cloth, dust and surgical masks don't protect from the harmful particles in smoke. N95 respirators that are tested to ensure proper fit and that are worn correctly may provide protection. Otherwise, they might just provide a false sense of security. They are not available in children's sizes and are not recommended for strenuous activities. N95 respirators are in limited supply due to COVID-19. Additional information on wildfire smoke and COVID-19 can be found on the Centers for Disease Control webpage.

DEQ's color-coded Air Quality Index provides current air quality conditions and ranks air quality as follows: Green is good. Yellow is moderate. Orange is unhealthy for sensitive groups such as children, seniors, pregnant women and those with respiratory conditions. Red is unhealthy for everyone. Purple is very unhealthy for everyone. Maroon is hazardous.

OBITUARY

John Alvin Pettus

June 18, 1923 – September 5, 2020

John Alvin Pettus passed away peacefully Saturday, September 5, 2020 at 9:20 am at his home in Christmas Valley. He was 97 years old. He lived life on his own terms, and there were many different facets of his life. He was instrumental in the forming of the Christmas Valley township and one of the founding fathers of the Christmas Valley Park and Recreation District. He was a star football quarterback and captain of his college football team. He was drafted by the San Francisco 49er's pro-football team, but decided to continue his education instead; ultimately graduating with a business degree at Mesa Junior College in Grand Junction, Colorado. He was a pilot, and an aspiring actor. He actually auditioned with John Wayne for a part in a movie. John Wayne got the part. He was a land developer and an old school hardworking man who had a kind and generous heart, (unless you wronged him)!

He had a large extended family who will miss him dearly.

A service will be held at Christmas Valley Cemetery on November 21, 2020. Time to be announced at a later date.

HERE'S WHAT'S HAPPENING AT CHRISTMAS VALLEY PARK AND RECREATION

We're fixing some things. The rodeo grounds are getting a few much needed repairs with the help of the Kenny and the Lake County Community Service Crew. Boards are being replaced and re-hung and new gates will be replacing some of the older, heavier, broken ones.

They have also built new picnic benches for the Rodeo Grounds!

Board member, Shara Shumway, has been hard at work procuring and delivering the necessary building materials for Kenny and his crew.

These improvements will make our Rodeo Grounds safer for all that use them.

suicidepreventionlifeline.org

SUICIDE WARNING SIGNS

These signs may mean someone is at risk for suicide. Risk is greater if a behavior is new or has increased and if it seems related to a painful event, loss, or change.

- Talking about wanting to die or to kill oneself.
- Looking for a way to kill oneself, such as searching online or buying a gun.
- Talking about feeling hopeless or having no reason to live.
- Talking about feeling trapped or in unbearable pain.
- Talking about being a burden to others.
- Increasing the use of alcohol or drugs.
- Acting anxious, agitated or behaving recklessly.
- Sleeping too little or too much.
- Withdrawing or feeling isolated.
- Showing rage or talking about seeking revenge.
- Displaying extreme mood swings.

Suicide Is Preventable. Call the Lifeline at: 1-800-273-TALK (8255).

Mommy & Me Group

Submitted

Do you have a little one, age birth to three years old, who doesn't meet the requirements for Preschool on Tuesdays? You and your child are invited to join Mrs. Anthony on the first and third Thursdays of each month from 10:00 a.m. - 11:30 a.m. at the North Lake School annex building for a **Mommy and Me Play Group**. "We will be exploring our world around us through music, movement, and sensory play," says Mrs. Anthony. "We will also be doing **Make and Take** activities once a month that you can do with your kiddos at home."

If you have questions, please call Mrs. Anthony at 503-351-7855.
