Christmas Valley was the site of the First Day of Issue of the 1981 contemporary Christmas Stamp.

It all started in the Summer of 1980 when Christmas Valley was announced, through National television and newspaper releases, that it would be the site of the First Day of Issue of the 1981 contemporary Christmas stamp.

Frank Thomas of the U.S. Postal Service in Washington, D.C. met with a group of interested community members to explain the significance, benefit to the community, and to provide specific instructions regarding this historic event.

Tee shirts and bumper stickers were made to commemorate the event. The Desert Whispers published a "Special Edition" charging 50¢ per copy. The eight people hired to handle the "monumental load" of the event could hardly keep up with the demand.

The event was chronicled in the November 1981 edition of the Desert Whispers, "Committees were formed, meetings were set up and projects were decided on as the community prepared for the event that would bring Christmas Valley worldwide philatelic recognition. Reporters came and went from all over, but they didn't begin to touch the stories that were unfolding around town. They caught the

main drift, our town being the site of the First Day of Issue of the 1981 contemporary Christmas stamp. They couldn't possibly catch every story about the hours, weeks, months so many donated to try to make the event a success. Maybe fame will be fleeting for Christmas Valley, but we doubt the pride we so evidently share in it, will fade quickly."

The Christmas Valley Community Hall was guarded overnight by local volunteers to ensure the safety of the cachets.

So what is a stamp cachet? Lisa Smith, a stamp collector, explains, "Cachets represent a really fun part of stamp collecting. First of all, though, stamp collectors need to understand what a First Day Cover (FDC) is because cachets are almost always found on them. An FDC is a cover (envelope or postcard) which has a stamp (or a series of stamps) affixed to it that has been cancelled by the post office on its first day of issue.

So, let's say you had bought the Canada Sugar Pie stamp (#3177a) on the day of its issue (April 17, 2019) and used it to stamp an envelope. Then you brought it straight to the post office on that very same day to be cancelled, postmarked and mailed. Tadah! Now you have made your very own FDC. Literally, a cover which was cancelled

on the first day of the stamp's issue." This is valuable to stamp collectors.

On the day of the First Day of Issue, October 28th, 1981 of the Christmas Valley stamp there was a "tremendous load" of orders for FDC of the stamp. The post office hired extra postal help and many community volunteers helped fulfill the orders.

This event was huge for Christmas Valley! The main contributors were the C.V. Boosters Club, the C.V. Park and Recreation District, the Desert Whispers, and the Lion's Club. Special albums containing the stamp and FDC were given to each entity in commemoration.

Names of several of the Christmas Valley community volunteers mentioned in the DW article are:

Betty Turnbow, Joyce Gallier, Norma Guthridge, Mae Nordyke, Rollie Smith, Carl Coonce, Walter Foote, Iris Hildebran, Carol Grassman, Julie & Gerry Malchow, Earl McMillen, Nita Richards, Loretta Stewart (designer of the commemorative envelope), Russell Brenchley, Lois Brenchley, Sharon Cline, Ilena Furman, Sue Johnson, Margaret Spry, Bud Maple, Fred Johnson, Martha Johnson, Dodie Robey, Jeanne Robey, Teresa Lane, Earl McMillen, Elaine Potter, Terry Weikel, Carmen Bishop, Marge Bohall, Emma Hennagin, Lea Lushenko, Elsie Uyttebroeck, Annette & Claude Blackman, Chuck & Theresa Bunnell, Darin Dutcher, Stan Fox, Doug Hyde, Lonnie McEwen, Dusty Stone, Ronald & Donald Yancy and Kitty & son, Freddie, Thomas.

Bend

of the 1981 contemporary Christmas stamp October 28, 1981. The ceremonies will begin with a short program starting at 11 a.m. The observance will take place on the golf course, weather permitting.

Those coming for the celebration are advised that motel reservations are a must. Self contained RV's are recommended.

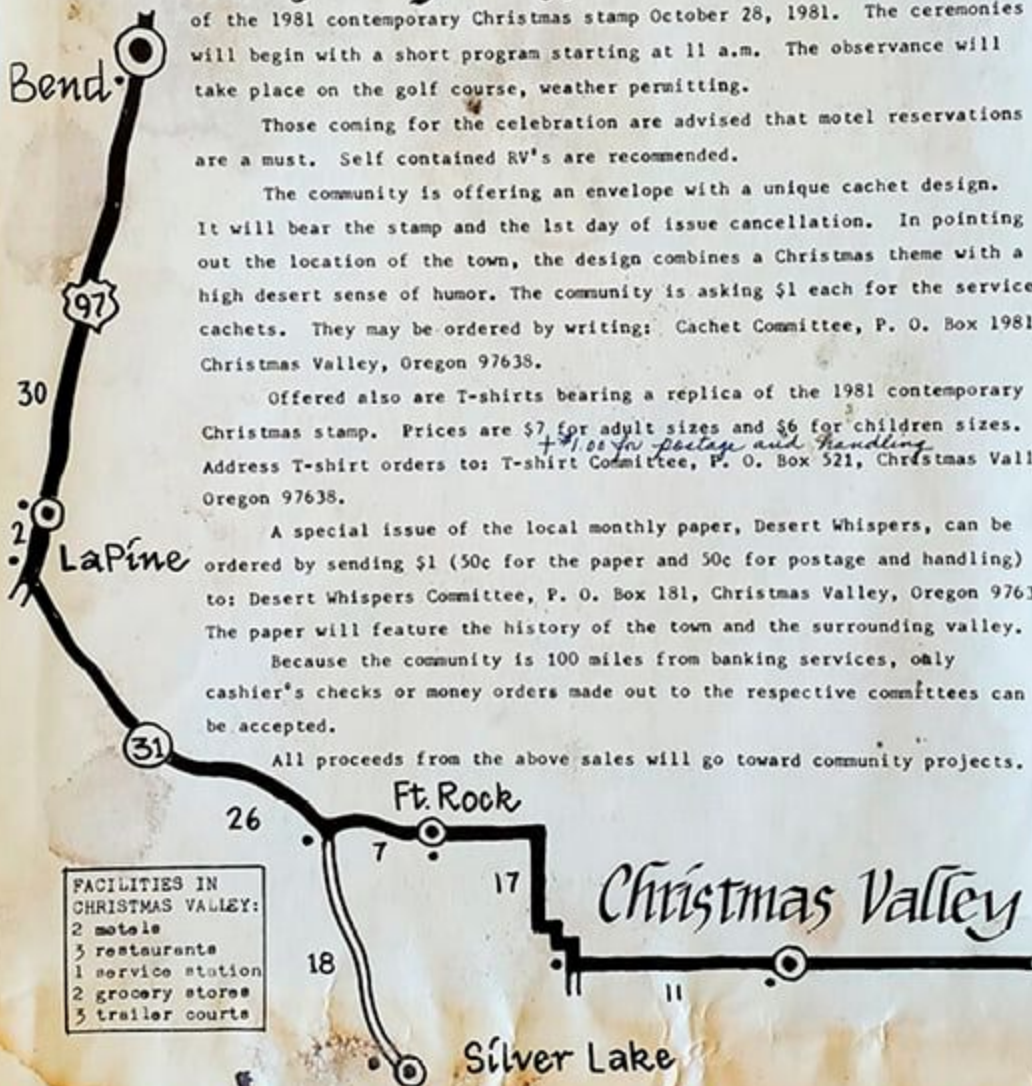

The community is offering an envelope with a unique cachet design. It will bear the stamp and the 1st day of issue cancellation. In pointing out the location of the town, the design combines a Christmas theme with a high desert sense of humor. The community is asking \$1 each for the serviced cachets. They may be ordered by writing: Cachet Committee, P. O. Box 1981, Christmas Valley, Oregon 97638.

Offered are T-shirts bearing a replica of the 1981 contemporary Christmas stamp. Prices are \$7 for adult sizes and \$6 for children sizes. *+ \$1.00 for postage and handling*
Address T-shirt orders to: T-shirt Committee, P. O. Box 521, Christmas Valley, Oregon 97638.

A special issue of the local monthly paper, Desert Whispers, can be ordered by sending \$1 (50c for the paper and 50c for postage and handling) to: Desert Whispers Committee, P. O. Box 181, Christmas Valley, Oregon 97638. The paper will feature the history of the town and the surrounding valley.

Because the community is 100 miles from banking services, only cashier's checks or money orders made out to the respective committees can be accepted.

All proceeds from the above sales will go toward community projects.

Marvin Leon Fowler

September 25, 1942 - November 11, 2021

Marvin Fowler lived a long productive life and leaves many family and friends behind. He is survived by his wife the Reverend Suzan Burch, his brothers and sisters; and his children, and grandchildren from a previous marriage.

Marvin served as assistant pastor to the flock of the Praise the Lord Fellowship and was an active volunteer in the Christmas Valley Community. He drove for the special transportation program until his health slowed him down.

Wife Suzan says Marvin passed away peacefully in his sleep at home in Christmas Valley.

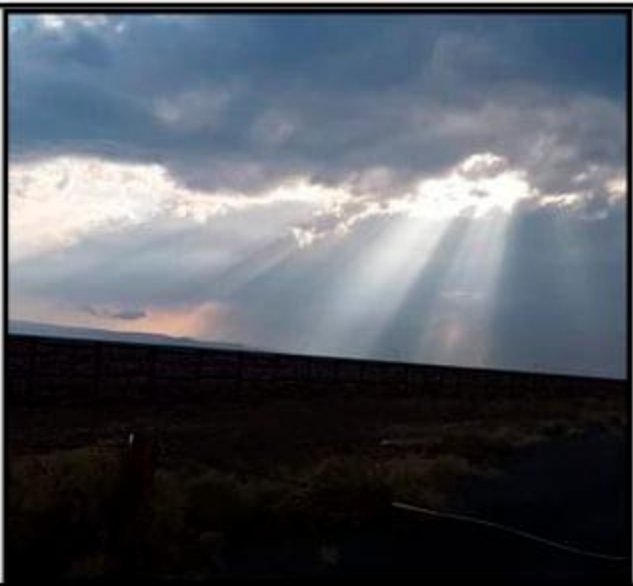

Contributions in his memory can be made to the Praise the Lord Fellowship will be used to help in the organization's charitable works.

A spring memorial Pow Wow, the date to be announced, is in the planning stages. Several other community members who have recently passed will also be memorialized at the Pow Wow.

Evening Primrose ~ *Oenothera biennis*

Also known as evening star and sun drop. It gets its name because its flowers usually open at dusk, after the sun is no longer on them. It grows in eastern and central North America and has naturalized to Europe. It is in the Onagraceae (Evening Primrose) Family.

It is a biennial plant. In its first year, the leaves can grow up to 10 inches long. Leaves are lance-shaped, toothed and form a rosette. In its second year, the flower stem has alternate, spirally-arranged leaves on a hairy, rough flower stem that is often tinged with purple. The leaves are reminiscent of willow leaves. This erect flower stem sometimes branches near the top of the plant and grows from 3-6 feet tall. It flowers from June to October. The bright yellow flowers are partially to fully closed during the heat of the day. Flowers have four petals and are 1 to 2 inches across. They grow in a many-flowered terminal panicle. The fragrant flowers last only 1 to 2 days. Seed pods are long and narrow.

All parts are edible, including the flowers, leaves, stalks, oil, root, and seed pods. Roots can be eaten either cooked or boiled. Its flowers and buds are good

raw in salads. Young seedpods can be cooked or steamed. Second year stems can be peeled and eaten fresh. Its seeds are edible and oily. Leaves aren't usually eaten due to their texture but they can be if boiled a few times.

The oil comes from the seeds, which contain gamma linolenic acid (GLA), and omega 6 fatty acid also found in borage. Flowers, roots, bark, and leaves are also used medicinally. Evening Primrose oil helps balance hormones in women. It naturally treats symptoms of PMS, including breast tenderness, water retention and bloating, acne, irritability, depression, moodiness, and headaches. It is also useful in the treatment of polycystic ovarian syndrome (PCOS), helping with fertility and in normalizing the menstrual cycle. It helps ease the symptoms of menopause as well; hot flashes, moodiness and sleep disturbance.

Evening Primrose attacks the hormonal causes of male pattern baldness and androgenetic alopecia in women by balancing the hormones, it prevents further hair loss and, in some people, helps hair grow back. It is best used both internally and externally by rubbing the scalp daily along with diluted rosemary

essential oil.

The oil works well for people with skin problems such as acne, eczema, dermatitis, and psoriasis. It balances the hormonal causes of these diseases reducing inflammation and promotes healing while reducing symptoms like itching, redness and swelling. It is a good supplement for rheumatoid arthritis and osteoporosis. Its anti-inflammatory and reduces pain and stiffness, balances hormones that cause bone loss in osteoporosis, as well as, helps with calcium absorption best combined with fish oil.

The bark and leaves are used for calming stomach muscle spasms and allow better digestion. A syrup made from flowers treats whooping cough by boiling in small amounts of water, strain, sweeten with raw honey. Long term use of oil reduces blood pressure and cholesterol levels.

Collect seed from August to October, press for oil before they dry out. Pick flowers in full bloom, gather leaves and bark when flowering stems have grown up. Strip the bark for later use. Dig the roots in the second year when they are larger and more potent.

APPLICATION NO. 21-050-CUP, 21-051-CP**

Public Hearing concerning an application by Webster Road Solar Farm II LLC to establish a Photovoltaic Solar Project (Utility Facility), which requires a Goal 3 Exception (Comprehensive Plan Change). The Planning Commission will review all project components of the applications submitted and give a Recommendation to the County Board of Commissioners (BOC). If later approved by the BOC, the Exception would allow a PV Solar project to be established on a parcel greater than 320 acres, but less than 1920 acres of nonarable land. Commercial Utility Facilities or other facilities for the purpose of generating power for sale are allowed as conditional uses under the Lake County Zoning Ordinance Articles 3 and 24, Oregon Revised Statute (ORS) 215.283, and Oregon Administrative Rule (OAR) 660-033-0130(38). The proposed solar site would be: T255 R14E TL 109, 113, 111 and 112 in the A-2 Agriculture Use Zone. The notice of public hearing has been mailed to all adjacent owners with 750 feet, which includes maps, a list of adjacent owners. Notice is also provided to all affected agencies (local, state, and federal) and a 35-day notice in advance of the hearing to the Department of Land Conservation and Development (DLCD). The application materials are available on the Land Use / Planning page of the county website and in the Planning Office in the Courthouse between normal business hours of 8:30-5:00 M-F and during the hearing. A Staff Report, addressing all of the criteria for the recommendations/decisions on the above applications will be available 7 days prior to the hearing. Published by the Lake County Planning Department, November 24, 2021

From the Application: Exhibit A-1: Project Description

The proposed project is a photovoltaic (PV) solar power generation facility as defined in Oregon Administrative Rules OAR 660-033-0130 (38)(f).

The project will primarily comprise of PV modules installed on fixed-tilt or single-axis tracking structures. These structures will be secured with foundation systems selected based on site-specific soil conditions, most likely driven steel piles or helical ground screws.

The PV modules will be connected to DC-to-AC inverters, electrical and transmission equipment for delivering the generated renewable energy to the electrical grid. The project may also include equipment capable of storing part of or the entire production of the facility (e.g., batteries). Such equipment will be installed on concrete pads or other comparable support.

The project will be surrounded by a chain-link (or comparable) fence, per applicable electrical codes.

The appearance of the completed project will be similar to the existing Outback Solar Project in Christmas Valley, and the site will be fully revegetated following construction with native species.
