BLISTER BEETLES FOUND IN LAKE COUNTY, CAN KILL HORSES

Black blister beetles (*Epicauta pennsylvanica*) have been found in southern Lake County and positively identified by an Oregon State University Extension Professor in Klamath County. These beetles produce cantharidin toxin that can cause painful blisters on the skin and can cause serious reactions in horses and to a lesser degree in other livestock.

Photo by Bruce Marlin

This toxin is very persistent and will not degrade if the beetle is crushed, treated with pesticide or cured in hay. As per the Oregon State University Extension Entomology Specialist, there is a link between grasshoppers and blister beetle populations. The larval stages of the blister beetle often prey on the eggs of the grasshoppers.

These beetles are not normally considered a pest but can be on alfalfa, and other field crops if found in high numbers. Alfalfa is the preferred host for the beetles and hay that contains beetles is of concern when feeding to horses. Horses are particularly sensitive to this toxin and depending on the species, ingesting small numbers can cause serious illness. Cantharidin is readily absorbed into tissues and irritates the gastrointestinal and urinary tract which can lead to death in horses.

Black blister beetles (*Epicauta pennsylvanica*) have been found in southern Lake County. These beetles produce cantharidin toxin that can cause painful blisters on the skin and can cause serious reactions in horses and to a lesser degree in other livestock.

Researchers have found that the lethal dose of cantharidin toxin if ingested by horses is approximately 1 mg/per kilogram of horse body weight. In other words, an 1,100-pound horse that eats 500 black blister beetles in their hay will most likely die. For other blister beetles, such as the striped blister beetle, as little as 50 beetles will kill an adult horse.

Steps to avoid poisoning: (Blister Beetles, University of Illinois Extension publication, extension.cropsciences.illinois.edu/fieldcrops/insects/blister_beetles/)

- Cut hay before the bud or bloom stage.
- Scout for blister beetles in several sections of the field prior to cutting, paying attention to field borders, ditches and weedy spots.
- If blister beetles are present, cut hay without crimping or conditioning so that the beetles are not killed and leave in wind rows as it is drying. This has been shown to reduce the presence of the beetles.

PUBLIC NOTICE

Several of the properties in the Christmas Valley township have utility easements for the **Christmas Valley Water District**.

When you have a utility easement on your property, the utility company/Water District may have a range of legal rights.

A few restrictions you might face include:

- Utility company/Water District access without your approval.
- Utility company/Water District may restrict your use of the easement when your use can harm underground water mains, valves, water meters, and the like.
- Restrictions on physical alterations: You may want to make an improvement to a certain section of your property. But the utility easement may prevent certain upgrades, such as erecting a fence or a gate.
- Vegetation restrictions: The utility company may require regular access to a particular area and constantly tear up your garden. Additionally, many utility easements limit the planting of major trees in a specified area.

If you're considering purchasing a property with a utility easement, take some time to research the local laws and regulations.

If you have questions regarding your utility easement call:
(541) 576-2090 or (541) 947-6921

PUBLIC NOTICE

Due to excessive heat and draught conditions the Christmas Valley Golf Course will be watering the fairways on Tuesdays, Wednesdays, and Thursdays from 7:30 a.m. until noon, in order to keep them in playable condition.

The Christmas Valley Park and Recreation Board has enlisted the help of Dave Uran, a professional rodent trapper, for the purpose of eradicating rodents from several areas on and around the golf course; primarily the #9, #1, putting green, and around the office. So far, Dave has eradicated 151 sagerats, 20 gophers, and 2 skunks. For those concerned about the baby skunk accidentally caught near the CVPR office, Karen Morgan extricated it from the trap and took it to a safe location where it was released unharmed (its leg was okay).

While the rodent trapping is ongoing, it is more important than ever for people visiting the golf course with dogs to obey the rule to have your dog on a leash while on CVPR property.

Also, Christmas Valley Golf Course uses only herbicides, fertilizers and other necessary applications that are safe for animals, humans and fish. If you have any concerns, you may inquire at the Christmas Valley Park and Recreation office located at the Golf Course.

We apologize for any inconvenience to our golf patrons, please know that our priority is to bring the golf course and all CVPR properties to the highest standard possible.

Thank you for your support.

Aging and Disability
Resource Connection

— of OREGON —
NO WRONG DOOR

*The first contact to make for information and resources
related to aging or living with a disability*

What are ADRCs?

ADRCs provide information and services to seniors, people with disabilities, their families and caregivers regardless of income. With a statewide researchable database, consumers are able to access over 6,000 resources: www.ADRCoOregon.org. There is also a statewide toll free number:

1-855-ORE-ADRC (1-855-673-2372).

It is one name, one number, and one website to make it easier for Oregonians to find the information and help they need.

ADRC Core Services:

- Information, referral and awareness
- Options counseling and assistance
- Access to public and privately funded long-term care programs
- Prevention and early intervention

The ADRC for Lake County is the Klamath and Lake Counties Council on Aging.

Direct line: 541-205-5400

Here is what is happening at
North Lake Health District
(NLHD)

As many know, LaPine Community Health Clinic has ceased providing Primary Healthcare services in Christmas Valley as of May 31, 2023.

The NLHD Board sent out an RFP (Request For Proposal) to several Healthcare Provider organizations any of them they would have liked to see take over the clinic. The only RFP response received was from Denise Griffiths the Primary Healthcare Provider formerly employed by La Pine Community Health Clinic. Denise Griffiths proposal was accepted by unanimous vote of the NLHD Board of Directors at the August 7th, 2023, regular Board meeting. The Board and Denise Griffiths will enter into a Service Agreement and Denise will obtain the necessary credentials to operate a medical clinic.

The NLHD Board would like the community to know that this is a time consuming process and that there may be a bit more time that the healthcare clinic will continue to be closed in Christmas Valley.

Your patience is deeply appreciated.

NLHD Board Meetings are the first Monday of every month.

IN A LANDSCAPE:

Fort Rock State Park

Join us in Fort Rock, Oregon for a visit to the Fort Rock Valley Historical Homestead Museum, a collection of original homestead era buildings including a church, school, houses, homestead cabins, and several other structures in a village setting and an *IN A LANDSCAPE* concert in the caldera up at Fort Rock State Natural Area, then join Hunter for our first (and long-awaited) Pie Social and "barn dance" at the Fort Rock Grange, featuring live music by Wampus Cat!

Towering above the sagebrush desert, the Fort Rock caldera was once a volcano that erupted under an inland sea. Waves lapping against the rock created caves that housed a shoe 'factory' where anthropologist Luther Cressman discovered an ancient collection of sandals in 1938. Their ages range from about 10,400 to 9,100 years old, making Fort Rock sandals the oldest directly dated footwear in the world.

For the concert, be prepared to hike up rocky terrain with your chairs, picnic, and water to the site, where you will sit amidst sage brush and desert grasses, and be surrounded by towering basalt cliffs. This area can be hot and dusty so please come prepared to be in the high desert's intense sunshine.

Your ticket purchase includes admission to the Museum, the concert, and the Pie Social and Dance.

GOOD NEIGHBOR TICKETS

Inspired by the Works Progress Administration's (WPA) Federal Music and Theatre Projects, which presented thousands of free concerts and plays in theaters, public spaces and parks across the country during the Great Depression, our Good Neighbor Program provides access to those who might not otherwise be able to afford a ticket to this outdoor classical music experience.

A number of Good Neighbor (free)* tickets are available at this concert for residents of Lake County and for Electronic Benefits Transfer (EBT) cardholders. One free Good Neighbor Ticket per order.

*Lake County ID or EBT card required at check-in with all Good Neighbor tickets. To access these tickets click on the tickets button and in the blue "enter promo code" field, enter the following code:

EBT cardholders: *inalandscape*
Lake County residents: *inthewild*

*Proud Sponsor of the
Christmas Valley Park and Recreation's
2023 Play Day Season*

~ Baert Lake - 1964 ~

Christmas Valley Park and Recreation District

invites everyone to enjoy
the Park and Rec properties.

We ask that while enjoying
the properties; specifically,
the Golf Course, the Rodeo
Grounds, the playground, the
multi-use field and Baert Lake,
that you be a good steward
and please do not litter, please
maintain control of your pets
by keeping dogs on a leash
and/or maintaining constant
supervision. If your dog should
defecate on the premises, please
be sure to pick up after it.

Horses and camping are only
permitted at the Rodeo Grounds.

Being good stewards and taking
pride in these properties reflects
on our community as a whole.

Thank you for your continued
support of Christmas Valley
Park and Recreation District.
