Lightning Storms Ignite Fires Endangering Christmas Valley

On September 6, 2024, several lightning strikes touched down and ignited several fires in North Lake County, one very near to Christmas Valley, West of Crack in the Ground Road, East of N. Oil Dri Road, North of Langdon Springs, and South of 4500 Road. This fire became known as The Bowman Well Fire.

The Bowman Well Fire burned on lands administered by the Bureau of Land Management Northwest of Christmas Valley. It was fueled by sagebrush, brush, Juniper, and grass, and grew to burn 2,850 acres and is now considered 97% contained.

On September 7, 2024, Lake County Sheriff's Office reported that there were 270 structures under an evacuation order. The Fire initially had 166 personnel assigned, and five crews, one heavy air tanker and four single engine tankers, and later 21 engines. The Lead Agency was the USDI Bureau of Land Management along with others listed as Incident Cooperators which included the South Central Oregon Fire Management Partnership - SCOFMP, Christmas Valley Rural Fire Protection District, Silver Lake Fire & Rescue RRPD, Lake County, Oregon government, Aunsville Fire, Estacada Fire District, Or State Fire Marshal and the Lake County Sheriff's Office.

Yesterday, there was minimal fire activity with no threat to established containment lines. Firefighters patrolled and identified places needing suppression repair and road grading. As containment increases, excess firefighting resources are being shifted to the Buck Creek Fire.

In typical style for the North Lake County area many people came out to support the firefighters by providing food and beverages and to help the community members that had to be evacuated. The Christmas Valley Park and Recreation District opened the Community Hall and several community members brought food and beverages to serve in the hall. The Rodeo Grounds were made available for dry camping and to pen any animals that may have been evacuated. Businesses also contributed to feeding the firefighters: Fort Rock Restaurant and Pub, the Fort Rock Saloon, Bubba's BBQ and The Ranch Hand in Christmas Valley.

Also, Point S Tire in Christmas Valley was busy keeping all the trucks on the road.

Thank you, Firefighters!!!

Continue west on the NFSR 3038019 to the USFS boundary at 42°54.803', -121°13.930' (Township 31S, Range 13E, section 4). Follow the Forest Service boundary West along the Yamsay Mountain Semi-Primitive Area Area/Forest Service Boundary to 42°55.3192', -121°25.797' (Township 30S, Range 11E, SE corner of section 32). The closure then follows the Yamsay Mountain Recreation Area north to where the Recreation area intersects the Klamath/Lake County border 42°59.532', -121°21.010' (Township 30S, Range 11E, SE corner of section 1.) (All lands to the east of the terminus of roads 4971, 4972, 4973, 4973-130, 4975-670 constitute the edge of this Forest Closure). The closure then follows the Klamath/Lake County border north to NFSR 7645. The closure continues west along 7645 (including the road) to NFSR 76/ Klamath County Road 676/Lake County Road 4-10/Bear Flat Road/Silver Lake Highway (Henceforth referenced as Bear Flat Road). The closure then follows Bear Flat Road east to the intersection with NFSR 2804 (This closure includes all Forest Service Lands south of Bear Flat Road, but does not include the Bear Flat Road itself. The closure then continues south along NFSR 2804 (including the road NFSR 2804) to the intersection of the NFSR 27 and NFSR 2804 to complete the closure area.

This order also closes all roads and trails within the closure boundary described above. This includes the following recreation sites and facilities: Upper Buck Forest Camp, Lower Buck Forest Camp, Antler Horse Camp/Trailhead, Silver Creek Marsh Campground, Silver Creek Marsh Trailhead, Thompson Reservoir Campground. Trail # 160 between Silver Creek Marsh Trailhead and NFSR 4973. Trail #171.

Utilizing closure areas allows firefighters to focus on full suppression efforts; it also ensures their safety and yours. Staying out safeguards firefighters from the risks associated with rescue efforts. There are many hazards associated with wildfires, and some of these hazards are not easily seen, which may go unnoticed by the untrained eye. When containment is reached, it still requires several weeks for firefighters to work through affected areas and mitigate hazards from wildfires and suppression efforts.
